Foundation Design Using Etabs :

Tall Building Foundation Design Harry G. Poulos, 2017-07-20 This book provides a comprehensive guide to the design of foundations for tall buildings After a general review of the characteristics of tall buildings various foundation options are discussed followed by the general principles of foundation design as applied to tall buildings Considerable attention is paid to the methods of assessment of the geotechnical design parameters as this is a critical component of the design process A detailed treatment is then given to foundation design for various conditions including ultimate stability serviceability ground movements dynamic loadings and seismic loadings Basement wall design is also addressed The last part of the book deals with pile load testing and foundation performance measurement and finally the description of a number of case histories A feature of the book is the emphasis it places on the various stages of foundation design preliminary detailed and final and the presentation of a number of relevant methods of design associated with each stage

Greening Affordable Housing

Abdullateef Olanrewaju, Zalina Shari, Zhonghua Gou, 2019-01-30 Books on green building theories principles and strategies applicable to life cycles of all kinds of buildings and building types are already widely available However those specifically on greening affordable housing that guide various housing stakeholders at different life cycles are still very limited This book intends to fill this gap Integrating green building enables stakeholders to address the environmental component that has not traditionally been seen as an integral part of affordable housing development The book presents theories and principles with practical methods strategies and processes not only to make affordable housing green but also to support economic stability and social equity
