Recent Trends in Social and Behaviour Sciences Ford Lumban Gaol, Seifedine Kadry, Marie Taylor, Pak Shen Li, 2014-02-27  
The human aspect plays an important role in the social sciences. The behaviour of people has become a vital area of focus in the social sciences as well. Recent Trends in Social and Behaviour Sciences contains papers that were originally presented at the International Congress on Interdisciplinary Behavior and Social Sciences held 4-5 November 2011. **Operations and Production Systems with Multiple Objectives** Behnam Malakooti, 2014-02-03  
The first comprehensive book to uniquely combine the three fields of systems engineering, operations, production systems, and multiple criteria decision making optimization. Systems engineering is the art and science of designing, engineering, and building complex systems combining art, science, management, and engineering disciplines. Operations and Production Systems with Multiple Objectives covers all classical topics of operations and production systems as well as new topics not seen in any similar textbooks before: small scale design of cellular systems, large scale design of complex systems, clustering, productivity and efficiency measurements, and energy systems. Filled with completely new perspectives, paradigms, and robust methods of solving classic and modern problems, the book includes numerous examples and sample spreadsheets for solving each problem, a solutions manual, and a book companion site complete with worked examples and supplemental articles. Operations and Production Systems with Multiple Objectives will teach readers how operations and production systems are designed and planned, how operations and production systems are engineered and optimized, how to formulate and solve manufacturing systems problems, how to model and solve interdisciplinary and systems engineering problems, how to solve decision problems with multiple and conflicting objectives. This book is ideal for senior undergraduate, MS, and PhD graduate students in all fields of engineering, business, and management, as well as practitioners and researchers in systems engineering, operations, production, and manufacturing. Decision Making in Service Industries Javier Faulin, Angel A. Juan, Scott E. Grasman, Michael J. Fry, 2012-08-08  
In real life scenarios, service management involves complex decision making processes usually affected by random or stochastic variables. Under such uncertain conditions, the development and use of robust and flexible strategies, algorithms, and methods can provide the quantitative information necessary to make better business decisions. Decision M Principles of Operations Management Jay Heizer, 2008 **Proceedings of the XV International symposium Symorg 2016** Ondrej Jaško, Sanja Marinković, 2016-06-03 **Subject Guide to Books in Print**, 1991 **Sm Operations Management S/M** Heizer, Render, Staff, Jay H.
