Reviews William Thomas Stead,1890 **The Cortisol Connection** Shawn Talbott,2011-01-01 Why does stress make you
fat What can you ultimately do about it Shawn Talbott answered these questions in THE CORTISOL CONNECTION Cortisol is
the body s main stress hormone prompting our fight or flight mechanism when dealing with a highly stressful situation like
being chased by a lion However the human body was made to deal with short bursts of stress like being chased by a lion not
prolonged continuous levels of stress like mortgage payments project deadlines and traffic jams This kind of stress causes the
body s cortisol levels to rise and scientific research has shown that high cortisol levels are associated with obesity diabetes
fatigue and even Alzheimer s disease This new edition describes the results of the latest research about the connection
between cortisol and HSD and cortisol and testosterone If we keep cortisol and HSD and testosterone within normal ranges
we re able to maximize the metabolic effect of diet and exercise regimen and improve weight loss In the first edition Talbott
introduced his SENSE program that teaches participants how to manage stress and reduce cortisol levels The program has
been refined in the second edition with the help of the new research and the results of Talbott s test of the SENSE program
over the past 5 years he know it works For the past 5 years he has been actively researching and refining and tweaking this
popular program to make it more and more effective in helping people to lose weight SENSE is a program that combines
Stress management Exercise Nutrition Supplementation and Evaluation into a comprehensive and highly effective yet easy to
follow program that delivers results During these 5 years Talbott has combined different dietary approaches with varied
exercise regimens and myriad supplement combinations until finding just the right combination that works best for the
majority of people This edition contains 25% new material and a revised program to help everyone manage cortisol stress
and their weight The American Review of Reviews Albert Shaw,1924
