Publisher description **Miles Beyond** Paul Tingen, 2001. One of the 20th century's authentic musical geniuses, Miles Davis was a pioneer of such jazz styles as cool, hard bop, and the fusion of orchestral music and jazz in his work with arranger Gil Evans. Yet when he made his boldest move in the late 1960s and began to experiment with rock and African music, giving birth to what became known as fusion or jazz rock, Davis alienated many of his jazz fans. This biography offers an in-depth exploration of Miles Davis's controversial electric period and the violent split of sentiment that it produced within the jazz community. Based on research both primary material and first-hand recollections by over 50 musicians, partners, producers, and artists, author Paul Tingen offers facts, insights, and stories about Miles's remarkable artistic and personal life. In doing so, he provides a perspective on Miles's working methods as well as an in-depth analysis of the music in historical order, offering an understanding of the development of Miles's music from 1967 to 1991, a period that has been both neglected and misunderstood.
