Intermediate Melodies Sheet Music Exercises for the Aspiring Musician by Douglas Tonks is a focused practice driven workbook designed to bridge the gap between beginner basics and confident expressive playing This book assumes you already read notation and have basic technique its purpose is to deepen your musical vocabulary through targeted exercises that build phrasing rhythmic control harmonic awareness and stylistic flexibility Each chapter centres on a short melodic study that isolates a specific skill intervallic shaping syncopation and groove modal coloration voice leading ornamentation and dynamic contour Exercises progress logically from guided etudes to open variations with clear notation suggested tempos and annotated practice notes that explain why each pattern matters and how to practice it efficiently Realistic musical examples show how the same techniques appear in repertoire across genres helping you transfer practice gains into songs and performances The workbook emphasizes deliberate practice short focused sessions with measurable goals slow to fast repetition and checkpoints for tone timing and musical intent Alongside technical drills you ll find short prompts for improvisation sight reading challenges and ear training mini exercises that reinforce the connection between what you see what you hear and what you play These elements are designed to make practice both productive and musically rewarding Whether you re preparing for auditions expanding your repertoire or simply aiming to play with more confidence and expression this book gives you a structured path forward Work through the studies at your own pace revisit sections that challenge you and treat each exercise as a small composition to be shaped and owned With steady mindful practice the melodies here will become tools for creativity rather than mere drills [Rhythm and Action with Music for the Piano](#)
