**The Essence of International Management** Andrey Medvedev, Wolfgang Amann, 2021-09-01 Why, when, where, and how to internationalise are core questions for leaders, managers, and their organisations today. This book provides a unique overview of the true essence of international management. As opposed to a conventional product-related, country-oriented approach to the international business area, this book intends to follow modern trends in international management with a greater focus on internationalisation of firm's earnings and costs. The total economic result of international business transactions in the firm takes account of all cross-border inflow and outflow of cash. Modern firms participate in industrial value chains that tend to cross national borders intensively. The firm's value chain activity exercised in a certain country serves as an appropriate unit of analysis in multinational firms' decision-making. The combination of such analytical units as firm, industry, with its value chain, country, and modes of foreign and cross-border operations is at the heart of the book's

structure Based on decades of delivering award winning executive education seminars and projects in numerous countries the authors address key questions in order to perpetuate an organisation s as well as an individual s success in international activities Numerous case studies from a variety of firms industries and countries help illustrate options and choices *The Palgrave Handbook of Cross-Cultural Business Negotiation* Mohammad Ayub Khan, Noam Ebner, 2018-12-13 Global business management issues and concerns are complex diverse changing and often intractable Industry actors and policy makers alike rely upon partnerships and alliances for developing and growing sustainable business organizations and ventures As a result global business leaders must be well versed in managing and leading multidimensional human relationships and business networks requiring skill and expertise in conducting the negotiation processes that these entail After laying out a foundation justifying the importance of studying negotiation in a global context this book will detail conventional and contemporary theories regarding international engagement culture cultural difference and cross cultural interaction with particular focus on their influence on negotiation Building on these elements the book will provide a broad array of country specific chapters each describing and analyzing the negotiation culture of businesspeople in a different country around the world Finally the book will look ahead with an eye towards identifying and anticipating new trends and developments in the field of global negotiation This text will appeal to scholars and researchers in international business cross cultural studies and conflict management who seek to understand the challenges of intercultural communication and negotiation It will provide trainers and consultants with the insights they need to prepare their clients for intercultural negotiation Finally the text will appeal to businesspeople who find themselves heading out to engage with counterparts in another country or operating in other multinational environments on a regular basis Strategic Management J.
