Mercury And Me:

Mercury and Me Jim Hutton, Tim Wapshott, 1995 The relationship between Freddie Mercury and Jim Hutton evolved over several months in 1984 and 1985 Even when they first slept together Hutton had no idea who Mercury was and when the star told him his name it meant nothing to him Hutton worked as a barber at the Savoy Hotel and retained his job and his lodgings in Sutton Surrey for two years after moving in with Mercury and then worked as his gardener He was never fully assimilated into Mercury s jet setting lifestyle nor did he want to be but from 1985 until Mercury s death in 1991 he was closer to him than anyone and knew all Mercury s closest friends the other members of Queen Elton John David Bowie Phil Collins to name a few Ever present at the countless Sunday lunch gatherings and opulent parties Hutton has a wealth of anecdotes about as well as a deep understanding of Mercury s life He also nursed Mercury through his terminal illness often held him throughout the night in his final weeks and was with him as he died No one can tell the story of the last few years of Mercury s private life the ecstasies and the agonies more accurately or honestly than Jim Hutton

Mercury in the Environment Michael S. Bank, 2012-05-31 Mercury deposition and contamination is widespread and well documented and it continues to be a public health concern for certain sectors of the global human population in both developed and developing countries This edited volume focuses on integrating the diverse sciences involved in the process of mercury cycling in the environment from the atmosphere through terrestrial and aquatic food webs and human populations to develop a comprehensive perspective on this important environmental pollutant Using a systems level approach this book provides recommendations on mercury remediation risk communication education and monitoring

In response to a growing need for understanding the cycling of this ubiquitous pollutant the science of mercury has grown rapidly expanding into several interdisciplinary fields and encompassing such disparate academic and scientific disciplines as biogeochemistry economics sociology public health decision sciences physics global change and mathematics Only recently have scientists really begun to establish more holistic approaches to studying mercury pollution giving rise to investigations that have furthered the integration of a multi tiered approach especially by using chemistry biology and human health sciences collectively The study of mercury pollution has produced a variety of contributions to domestic and international policies related to the management of mercury in the environment Provided by publisher
