Statistics Management 7th Edition Richard Levin:

Statistics for Management Richard I. Levin, 2008-12 Statistics For Management is a textbook of business statistics that helps students grasp the fundamentals of the subject in a simple and easy manner Statistics For Management is a detailed textbook on the subject of business statistics It seeks to dispel the seeming complexity of the subject by presenting the concepts in a lucid and visually demonstrative manner The book begins with an overview of business statistics Subsequent chapters cover topics like tables and graphs probability sampling estimation testing hypotheses and quality and quality control The last few chapters present concepts like chi square analysis of variance simple regression and multiple regression non parametric methods time series and forecasting and index numbers The book ends with a chapter on decision theory The concepts in the book are explained at length and illustrative explanations are given precedence over complex mathematical notations Also each discussion is accompanied by examples that demonstrate one or more real world applications of the concepts All the hypothesis tests are conducted using the standardized scale Every section ends with three types of exercises for practice self evaluative basic and application exercises A very useful feature of the book is the Hints And Assumptions feature which provides useful hints for solving the exercise problems and alerts the students about the commonly committed mistakes while solving them Statistics For Management was published in 2011 by Pearson

LOGISTICS AND SUPPLY CHAIN MANAGEMENT OF ORGANISED RETAIL - A KERALA PERSPECTIVE Biju M. K., 2019-03-20 Successful supply chain management requires a high degree of functional and organizational integration A major problem is the uncertainty due to lack of coordination in the supply chain The lack of coordination causes manufacturing cost inventory cost replenishment lead time transportation cost and labour cost to increase and the level of product availability and profitability to reduce This research work has been aimed at understanding the gap between the expectations and performance on different attributes of Logistics and Supply Chain Management adopted at different the stages in the supply chain viz by customers retailers suppliers and transporters in Kerala The study is also aimed at understanding the level of implementation of latest concepts in supply chain management among the different entities
