The Comfort Of Things Daniel Miller:

The Comfort of Things Daniel Miller, 2008 The diversity of contemporary London is extraordinary and begs to be better understood Never before have so many people from such diverse backgrounds been free to mix and not to mix in close proximity to each other But increasingly people's lives take place behind the closed doors of private houses How can we gain an insight into what those lives are like today Not television characters not celebrities but real people How could one ever come to know perfect strangers Danny Miller attempts to achieve this goal in this brilliant exposé of a street in modern London He leads us behind closed doors to thirty people who live there showing their intimate lives their aspirations and frustrations their tragedies and accomplishments He places the focus upon the things that really matter to the people he meets which quite often turn out to be material things the house the dog the music the Christmas decorations He creates a gallery of portraits some comic some tragic some cubist some impressionist some bleak and some exuberant We find that a random street in modern London contains the most extraordinary stories Mass murderers and saints the most charmed Christmas since Fanny and Alexander and the story of how a CD collection helped someone overcome heroin Through this sensitive reading of the ordinary lives of ordinary people Miller uncovers the orders and forms through which people make sense of their lives today He shows just how much is to be gained when we stop lamenting what we think we used to be and instead concentrate on what we are becoming now He reveals above all the sadness of lives and the comfort of things

Double Homes, Double Lives? Orvar Löfgren, 2007 A rapidly growing number of double homes connect different parts of Europe in new ways The second home can be a cottage in the woods an apartment in the Costa del Sol or a restored farm house in Tuscany However other forms of double homes must be added to these landscapes of leisure There are long distance commuters who spend most of their week in an overnight flat in a caravan on a dreary parking lot or at a construction site Economic migrants dream of a house back home for vacations or retirement Dual homes come in all shapes and sizes from the caravans of touring circus artists to people turning sailboats into a different kind of domestic space This special issue of *Ethnologic Europaea* captures some dimensions of lives that are anchored in two different homes How are such lives organised in time and space in terms of identification belonging and emotion How do they in very concrete terms render material transnational lives The next issue of the journal 2008 1 will take such a comparative perspective into another direction as the authors will consider different kinds of research strategies to achieve European comparisons and to gain new cultural perspectives on European societies and everyday life

How the World Changed Social Media Daniel Miller, Elisabetta Costa, Nell Haynes, Tom McDonald, Razvan Nicolescu, Jolynna Sinanan, Juliano Spyer, Shriram Venkatraman, Xinyuan Wang, 2016-02-29 How the World Changed Social Media is the first book in Why We Post a book series that investigates the findings of anthropologists who each spent 15 months living in communities across the world This book offers a comparative analysis summarising the results of the research and explores the impact of social media on politics and gender education and commerce What is the result of the increased emphasis on visual communication Are we becoming more individual or more social Why is public social media so conservative Why does equality online fail to shift inequality offline How did memes become the moral police of the internet Supported by an introduction to the project s academic framework and theoretical terms that help to account for the findings the book argues that the only way to appreciate and understand something as intimate and ubiquitous as social media is to be immersed in the lives of the people who post Only then can we discover how people all around the world have already transformed social media in such unexpected ways and assess the consequences

New Statesman, 2008 **Blueprint**, 2010 **Ethnologia Europaea Journal of European Ethnology** Tom O'Dell, Robert Willim, 2012-03-26 Ethnography has become something of a buzzword in recent years It is talked about and invoked in disciplines ranging from anthropology and ethnology to literature history business administration and design studies Textbooks that teach ethnography tend to imbue students with the impression that ethnography is a mode of systematic investigation by which the researcher gets closer to the realities of people s everyday lives But how straightforward are these processes in reality As ethnography spreads into new folds of research both within and without the academy the contributions in this volume demonstrate the manner in which field methods are adjusting transforming or taking new forms altogether If textbooks might lead students to believe that observations and interviews are the grounds upon which good ethnography can regularly be produced the authors in this volume take as their point of departure the realisation that ethnography is being used in a multitude of different contexts which forces them and us as readers to question the regularities and irregularities of their own work
