worse it's leaving little room for our generation to ask the big questions about who they want to be and what makes a life feel meaningful. Perhaps we're losing sight of the things that fulfill us: strong relationships, real roots in a community, and the ability to question how we want our lives to look and feel, even when that's different from what we see on the Gram. Stauffer makes the case that many of our most formative young adult moments are the ordinary ones: finding our people and sticking with them, learning to care for ourselves on our own terms, and figuring out who we are when the other stuff—the GPAs, job titles—the filters fall away.

The Twentysomething Treatment Meg Jay, 2024-04-09
There is a young adult mental health crisis in America. So many twentysomethings are struggling, especially with anxiety, depression, and substance use. Yet as a culture, we are not sure what to think or do about it. Perhaps it is said: young adults are snowflakes who melt when life turns up the heat. Or maybe some argue they're triggered for no reason at all. Yet even as we trivialize twentysomething struggles, we are quick to pathologize them and to hand out diagnoses and medications. Medication is sometimes, but not always, the best medicine. For twenty-five years, Meg Jay has worked as a clinical psychologist who specializes in twentysomethings, and here she argues that most don't have disorders that must be treated; they have problems that can be solved. In these pages, she offers a revolutionary remedy that upends the medicalization of twentysomething life and advocates instead for skills over pills.

Supernormal Meg Jay, 2017-11-14
Clinical psychologist and author of *The Defining Decade*, Meg Jay takes us into the world of the supernormal: those who soar to unexpected heights after childhood adversity. Whether it is the loss of a parent to death or divorce, bullying, alcoholism, or drug abuse in the home, mental illness in a parent or a sibling, neglect, emotional, physical, or sexual abuse, having a parent in jail, or growing up alongside domestic violence, nearly 75% of us experience adversity by the age of 20. But these experiences are often kept secret, as are our courageous battles to overcome them. Drawing on nearly two decades of work with clients and students, Jay tells the tale of ordinary people made extraordinary by these all-too-common experiences: everyday superheroes who have made a life out of dodging bullets and leaping over obstacles, even as they hide in plain sight as doctors, artists, entrepreneurs, lawyers, parents, activists, teachers, students, and readers. She gives a voice to the supernormals among us as they reveal not only how they do it but also how it feels. These powerful stories, and those of public figures from Andre Agassi to Jay-Z, will show supernormals they are not alone but are in fact in good company. Marvelously researched and compassionately written, this exceptional book narrates the continuing saga that is resilience as it challenges us to consider whether and how the good wins out in the end.
