The Fifties David Halberstam:

The Fifties David Halberstam, 1994-05-10 *The Fifties* is a sweeping social political economic and cultural history of the ten years that Halberstam regards as seminal in determining what our nation is today Halberstam offers portraits of not only the titans of the age Eisenhower Dulles Oppenheimer MacArthur Hoover and Nixon but also of Harley Earl who put fins on cars Dick and Mac McDonald and Ray Kroc who mass produced the American hamburger Kemmons Wilson who placed his Holiday Inns along the nation's roadsides U 2 pilot Gary Francis Powers Grace Metalious who wrote *Peyton Place* and Goody Pincus who led the team that invented the Pill A NEW YORK TIMES BESTSELLER *The Entrepreneurial Society* David B.

Audretsch, 2007-07-02 In the depiction of the post World War II economy two factors mattered for economic growth capital and labor Economists were thus focused on macroeconomic policy in order to induce investment in capital while social institutions like education were oriented towards producing a labor force equipped to work in an economy consisting of large scale factories However in the leading developed economies globalization and technology have triggered a shift away from capital which can be moved to lower cost locations through downsizing and outsourcing of employment and towards knowledge Audretsch argues in this book that the entrepreneurial economy is the strategic response to this shift In this economy a new growth policy has emerged focusing on promoting knowledge capital and entrepreneurship capital with programs like incubators science parks and start up programs In addition knowledge based geographic clusters have arisen like Silicon Valley Cambridge and Bangalore This book will provide a lens for understanding and interpreting the emergence of entrepreneurship policy Audretsch will make connections between entrepreneurship and economic growth at the levels of individual firms and entire regions He concludes that entrepreneurship contributes to economic growth by serving as a conduit for knowledge spillovers injecting competition into the market for new ideas and increasing the amount of diversity This book should appeal to researchers and students in developmental economics **Presidents versus Senators** F.

Martin Harmon, 2021-10-25 Landmark political confrontations between sitting presidents and powerful senators have occurred throughout American history some have shaped the nation This book takes an in depth look at seven of those major Washington wars including the personal rivalries that spawned each one the strategies and events that transpired as a result and the aftermaths and impacts on the country Neither compromise nor surrender were considered in these intense debates which left scars on the national psyche Each episode could be worthy of a historical narrative all its own but considered together they illustrate the long and bitter history of democratic warfare between the leaders and branches of government at either end of Pennsylvania Avenue **Witness to the Fifties** Constance B. Schulz, Clarke M. Thomas, Steven Wright Plattner, 1999 Unforgettable photographs from Roy Stryker's Pittsburgh Photographic Library PPL capture the convergence of destruction and rejuvenation that is the essence of an urban renaissance all the anxiety and hope of the fifties is reflected in these poignant photographs and explained through essays and narrative *Mamie Doud Eisenhower* Marilyn Irvin

Holt,2007 A biography of Mamie Eisenhower who accomplished many things that were overlooked by her contemporaries and used her popularity to the benefit of her husband while changing the role of first lady and covers her experience as an army wife and how it prepared her for the White House during the McCarthy era **Roe V. Wade** N. E. H. Hull, Peter Charles Hoffer,2010 This up to date history of Roe v Wade covers the complete social and legal context of the case that remains the touchstone for America s culture wars Devil's Bargains Hal Rothman,1998 The West is popularly perceived as America s last outpost of unfettered opportunity but twentieth century corporate tourism has transformed it into America s land of opportunism From Sun Valley to Santa Fe towns throughout the West have been turned over to outsiders and not just to those who visit and move on but to those who stay and control Although tourism has been a blessing for many bringing economic and cultural prosperity to communities without obvious means of support or allowing towns on the brink of extinction to renew themselves the costs on more intangible levels may be said to outweigh the benefits and be a devil s bargain in the making Hal Rothman examines the effect of twentieth century tourism on the West and exposes that industry s darker side He tells how tourism evolved from Grand Canyon rail trips to Sun Valley ski weekends and Disneyland vacations and how the post World War II boom in air travel and luxury hotels capitalized on a surge in discretionary income for many Americans combined with newfound leisure time From major destinations like Las Vegas to revitalized towns like Aspen and Moab Rothman reveals how the introduction of tourism into a community may seem innocuous but residents gradually realize as they seek to preserve the authenticity of their communities that decision making power has subtly shifted from the community itself to the newly arrived corporate financiers And because tourism often results in a redistribution of wealth and power to outsiders observes Rothman it represents a new form of colonialism for the region By depicting the nature of tourism in the American West through true stories of places and individuals that have felt its grasp Rothman doesn t just document the effects of tourism but provides us with an enlightened explanation of the shape these changes take Deftly balancing historical perspective with an eye for what s happening in the region right now his book sets new standards for the study of tourism and is one that no citizen of the West whose life is touched by that industry can afford to ignore

American Decades Richard Layman, Vincent Tompkins,1994 Examines the changes in American civilization from the beginning of the twentieth century to the present *The Best Books for Academic Libraries: History of the Americas* ,2002 Books recommended for undergraduate and college libraries listed by Library of Congress Classification Numbers **The Publishers Weekly** ,1997 **American Skin** Leon E. Wynter,2002 Race has always been America s first standard and central paradox From the start America based its politics on the principle of white supremacy but it has always lived and dreamed of itself in color The truth beneath the contradiction has finally emerged and led us to the threshold of a transformation of American identity as profound as slavery was defining We live in a country where the King of Pop was born black and a leading rap M C is white where salsa outsells ketchup and cosmetics firms advertise blond hair dye with black

models Whiteness is in steep decline as the primary measure of Americanness The new true American identity rising in its place is transracial defined by shared cultural and consumer habits not skin color or ethnicity And this unprecedented redefinition of what American sounds looks and feels like is not being driven by the politics of protest or liberal multiculturalism but by a more basic American instinct the profit motive Smart marketers discovered that the inherent subversive appeal of transracial American culture was the perfect boombox for breaking through the noise of a crowded marketplace Nike and the NBA used unambiguous black style to create modern sports marketing Pepsi validated Michael Jackson as a superstar while adding millions to its own bottom li Hollywood turned a taboo into a lucrative cliché with black white buddy films Oprah Winfrey created the model for the ultimate individual corporate br and Budweiser created a signature series of commercials built around four ordinary black men signaling something ineffably American with one word Wassup In the end this is a hopeful but clear eyed argument that while we fall short of true equality we are opting to carry on that struggle together within a common American cultural skin There s been a radical shift in the place of race and ethnicity in America Near revolutionary developments in advertising media marketing technology and global trade have in the last two decades of the twentieth century nearly obliterated walls that have stood for generations between nonwhites and the image of the American dream The mainstream heretofore synonymous with what is considered average for whites is now equally defined by the preferences presence and perspectives of people of color The much maligned melting pot into which generations of European American identities are said to have dissolved is bubbling again but on a higher flame this time whiteness itself is finally being dissolved into a larger American identity On its surface this book tells the story of how and why big business turned up that flame and a brief history of race and pop culture leading up to this watershed But at its core American Skin is about the revolution that higher heat on American identity is bringing about the end of white America This book begins and my arguments and insights ultimately rest on one premise and guiding belief about this country We have always been and will ever be of one race human and of one culture American From the Introduction

Frank J. Lausche James Ellis Odenkirk, 2005 A biography of twentieth century politician Frank J Lausche a first generation son of Slovenian immigrants

who served as a two term mayor in Cleveland as well as a five term governor two term U S Senator and Municipal Court and Common Pleas judge The North Branch of the Old Spanish Trail Jack Nelson,1996 *Black Market* Joshua Alexander Shannon,2003 **Sidelines Activist** Richard Robbins,1996 Although Charles S Johnson 1893 1956 called himself a sidelines activist his advocacy for racial equality was never watered down or half hearted His strategy was to work indirectly sometimes behind the scenes to influence public policy and to mobilize groups with special concerns for the tragic plight of rural black sharecroppers In coalition with an embattled band of southern white liberals he pressed the federal government to end lynching the poll tax separate but equal schooling and other racial inequities of the Jim Crow era Throughout his career he played the vital role of building bridges between the races specifically in gaining white philanthropic support in conducting sociological research and in stimulating activism in the black community This is the first full length biography of Johnson Together with W E B Du Bois and E Franklin Frazier he has been defined as a founding father among contemporary black sociologists His career as a professional sociologist was only one aspect of a many sided life which took him from the small town of Bristol in southwest Virginia into the greater world of crisis and conflict In Chicago he conducted landmark research on the devastating race riot there in 1919 In Harlem in the twenties he directed research for the Urban League edited its journal Opportunity and functioned as entrepreneur of the Harlem Renaissance paving the way to publication for such writers as Langston Hughes and Zora Neale Hurston He returned to the South and Fisk University where for a quarter of a century he conducted research on the South s twin system of economic and racial exploitation Two of his books Shadow of the Plantation on the South s declining feudal cotton economy and Growing up in the Black Belt a study of black youth and its problems in the 1930s are recognized today as classics In the last ten years of his life Johnson served as the first black president of Fisk University one of the most important of the historically black colleges **Mid-America** ,1994

Modernism's Masculine Subjects Marcia Brennan,2004 In the era of The Man in the Gray Flannel Suit when social pressures on men to conform threatened cherished notions of masculine vitality freedom and authenticity modernist paintings came to be seen as metaphorical embodiments of both idealized and highly conflicted conceptions of masculine selfhood In Modernism s Masculine Subjects Marcia Brennan traces the formalist critical discourses in which work by such artists as Henri Matisse Willem de Kooning and Jackson Pollock could stand as symbolic representations that at once challenged and reproduced such prevailing cultural conceptions of masculinity Rejecting the typical view of formalism s exclusive engagement with essentialized and purified notions of abstraction and its disengagement from issues of gender and embodiment Brennan explores the ways in which these categories were intertwined historically and theoretically Brennan makes new use of writings by Clement Greenberg and other powerful critics describing the works *Passionate Politics* Ralph J. Poole,Ilka Saal,2008 This new collection of essays on American stage and film melodrama assesses the multifarious and contradictory uses to which melodrama has been put in American culture from the late 18th century to the present It

focuses on the various ways in which the genre has periodically intervened in debates over race class gender and sexuality and in this manner has also persistently contributed to the formation and transformation of American nationhood from the debates over who constitutes the newborn nation in the Early Republic to the subsequent conflict over abolition and the discussion of gender roles at the turn of the 19th century to the fervent class struggles of the 1930s and the critiques of domestic containment in the 1950s as well as to ongoing debates of gender race and sexuality today Addressing these issues from a variety of different angles including historical aesthetic cultural phenomenological and psychological approaches these essays present a complex picture of the cultural work and passionate politics accomplished by melodrama over the course of the past two centuries particularly at times of profound social change
