Start by discussing the different ways we can write numbers. Give the example 258 and create a chart to differentiate between the different ways of writing it. Demonstrate how to build numbers using base 10 blocks from the different forms. Explain how the numbers of blocks used correlate to each place value.	Students will be given the dot & write activity. Explain that they will use 3 dice and roll 3 digit numbers filling in each digit by reading the dice they rolled. They will then need to take the standard form and convert it into word form, base 10 drawing, and expanded form. (Manipulatives can be used at your discretion.) Walk around to complete quick assessments to see how students are doing.	There are a few different options that you can use based on what your students are needing.
