to your laptop or desktop computing granting you an unlimited mobile life *Commerce Business Daily*, 2001-08 **How I Trade For A Living...And Now So Can You**, Preventing Good People From Doing Bad Things Brian Anderson, John Mutch, 2011-12-07 In today's turbulent technological environment it's becoming increasingly crucial for companies to know about the principle of least privilege. These organizations often have the best security software money can buy with equally developed policies with which to execute them but they fail to take into account the weakest link in their implementation: human nature. Despite all other efforts, people can sway from what they should be doing. Preventing Good People from doing Bad Things drives that concept home to business executives, auditors, and IT professionals alike. Instead of going through the step-by-step process of implementation, the book points out the implications of allowing users to run with unlimited administrator rights, discusses the technology and supplementation of Microsoft's Group Policy, and dives into the different environments least privilege affects, such as Unix and Linux servers and databases. Readers will learn ways to protect virtual environments, how to secure multi-tenancy for the cloud, information about least privilege for applications, and how compliance enters the picture. The book also discusses the cost advantages of preventing good people from doing bad things. Each of the chapters emphasizes the need auditors, business executives, and IT professionals all have for least privilege and discuss in detail the tensions and solutions it takes to implement this principle. Each chapter includes data from technology analysts including Forrester, Gartner, IDC, and Burton, along with analyst and industry expert quotations. **Micro Communications**, 1984 **PC Mag**, 1994-01-11 PCMag.com is a leading authority on technology, delivering lab-based independent reviews of the latest products and services. Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology. PC World, 1995 **Small Computers in Libraries**, 1987 **Electronics World**, 1997 Macworld, 2004 Jamie Whincup Jamie Whincup, 2022-02 With success comes challenges, and Jamie has always had a target painted squarely on his rear spoiler. And it all started back in 1991 when his father put him behind the wheel of his first go-kart. With steely focus and a relentless desire to win, it was only a matter of time before Whincup made the leap to the Formula Ford circuit and on to the big show: Supercars. But there are ups and downs to life in the fast lane: sackings, loss of sponsors, the rivalries, the fans, the partnerships, the sacrifices, and being true to the dream when everything looks like an off-ramp. There are freak accidents, split-second decisions that win the day, omens from the race gods, and a strong dose of self-made luck. In 2008, Jamie would seal his quest for the Supercar crown after several near misses and he wouldn't look back. Seven championships, four Bathurst 1000 victories, and a Bathurst 12-hour win in the books, you'd be tempted to ride off into the sunset. But that's never been Jamie's style. It's just the start of his next act: team principal of Triple Eight Race Engineering and mentor to the next generation of champions. You have to make a decision: What do you want out of life? Where do you want to go? How do you want to live? *Adweek*, 1988-05 Innkeeping, 2003 Keeping Pace with Technology: The challenge and promise for K-12 educators Kathleen P. King, 2002 **Sales**
