## **Range Rover Sport S :**

**Range Rover Sport 2005-2013** James Taylor, 2019-11-28 When the Range Rover Sport was launched in 2005 it was aimed at a new group of customers who in many cases would never have considered a Land Rover product before These customers wanted and could afford a luxurious vehicle that was expensive to run but they also wanted a very personalized vehicle that did not have the rather grand and conservative connotations of the full size Range Rover Brasher and more glamorous than its older sibling the Sport was soon adopted by celebrities and others who expected to be noticed Range Rover Sport The Complete Story is the first book devoted specifically to the first generation Range Rover Sport It tells the story behind the development and launch of the vehicle it explains the market reaction including contemporary press reviews provides details of each model with technical specification tables and colour and trip options lists production figures and VIN identification and dating details prices and sales figures for the UK USA and Canada and finally includes a useful chapter on buying and owning

**The International Vehicle Aerodynamics Conference** IMechE, 2014-11-12 Aerodynamics has never been more central to the development of cars commercial vehicles motorbikes trains and human powered vehicles driven by the need for efficiency reducing carbon dioxide emissions reducing fuel consumption increasing range and alleviating problems associated with traffic congestion Reducing vehicle weight makes it more challenging to ensure that they are stable and handle well over a wide range of environmental conditions Lighter structures are also more vulnerable to aerodynamically induced vibration Alongside this customers demand an environment that is quiet comfortable and maintains their vision of the world around them in all weathers These aims must be met by designing vehicles that engage customers emotionally promoting the brand values of manufacturers and operators This can only be done by collaboration between designers and aerodynamicists Examine the latest developments in vehicle aerodynamic development Explore opportunities to network and share experiences around different areas Focus on future challenges and the engineering knowledge and technology required to resolve them Discuss other areas of development including handling and stability tyre aerodynamics and modelling aeroacoustics and fluid structure interaction
