

HESI A2 - Reading **Comprehension 100%** **VERIFIED ANSWERS** **2024/2025**

Identifying the Main Idea

First identify the topic by asking "What is the passage about?" Once this question is answered, then ask "What point is the author making about this topic?" The majority of paragraphs will include information about the main idea. Stop and summarize, and visualize as you read.

HESI Hint: Main Ideas

Main ideas can be found in the beginning, in the middle, or at the end of a paragraph or passage. Always check the introduction and conclusion for the main idea.

Topic Sentence

A sentence that expresses the main idea of the paragraph. Can be stated in one or two sentences, and are often found at the beginning of paragraphs.

Identifying Supporting Details

These are details that the writer uses to give a description, a background, or simply more information to support the main idea. They may be examples, facts, or statistics. Often the author's main idea can be confused with the examples or reasons that support the main idea.

[Dyslexia in Adulthood](#) Eddy Cavalli, Pascale Colé, Lynne G. Duncan, 2026-02-03 This

groundbreaking book provides a comprehensive international perspective on how dyslexia manifests across the lifespan with a rare and valuable focus on adults. Each chapter meticulously examines research on critical aspects of dyslexia relevant to adult populations. The book delivers an in-depth assessment of the dyslexic reader's neurocognitive profile, exploring language processing, memory systems, learning mechanisms, executive functions, and neurobiological foundations. Readers will find evidence-based approaches to screening, diagnosis, and intervention specifically tailored to adults with dyslexia. The text addresses crucial questions about long-term cognitive risk factors while highlighting how adults with dyslexia develop resilience through effective compensatory strategies. By synthesizing diverse research into a single authoritative resource, this book serves as an essential reference for scholars, students, and professionals worldwide who seek to understand how dyslexia impacts training, education, and employment throughout adulthood.

Language and Theory of Mind Derek E. Montgomery, Virginia Tompkins, 2026-02-10

Theory of mind is the capacity for understanding how thoughts and feelings underlie what people say and do. It is the interpretive key that helps people make sense of the social world. Children's language acquisition is the pathway for their participation in the social world. With language, children share thoughts, feelings, and meaning with others. Together, theory of mind and language catalyze the development of social understanding in childhood. This book is about research and theory devoted to understanding how that happens. Research on language and theory of mind spans multiple disciplines and multiple decades. This book organizes and integrates the expansive literature, providing a comprehensive portrait of what we know and still need to know about the role of language in children's understanding of the mental world. The authors discuss how children come to talk about the mind, the contributions of caregiver-child conversation to theory of mind development, and the pragmatic skills infants and children need for a meeting of the minds within conversation. Coverage also explores the fundamental relation that theory of mind has with narrative comprehension and engagement with fiction throughout the lifespan. Excerpts from parent-child conversations in each chapter illuminate how the social use of language is tied to understanding the mind. The authors synthesize the language theory of mind literature into a cohesive presentation intended for researchers and graduate students in psychology and related fields such as education, philosophy, and psycholinguistics, as well as practitioners who work with children in clinical and educational settings.

Harnessing AI-Generated Content in Language Education Dehghan, Farzaneh, 2026-03-04

Artificial Intelligence (AI) transforms the landscape of language education, offering new opportunities to enhance teaching and learning experiences. One of the most impactful developments is the use of AI-generated content, like dialogues, essays, assignments, and personalized feedback, created by intelligent systems. By harnessing this technology, educators can provide learners with adaptable, engaging, and contextual resources catered to diverse learning styles and proficiency levels. This integration streamlines content creation while creating paths for interactive and immersive language learning, reshaping traditional pedagogical approaches in the digital age. *Harnessing AI-Generated Content in Language Education* explores the
