Cinéma russe contemporain, (r)évolutions Eugénie Zvonkine, 2017-11-06 Comment le cinéma russe contemporain repense son passé soviétique et s'inscrit dans la Russie d'aujourd'hui Comment il négocie sa place face aux goûts des spectateurs et aux exigences esthétiques Comment il invente ou réinvente ses formes génériques et quelle place il laisse aux cinéastes singuliers et leurs univers cinématographiques

New Approaches to the Great Paris Magical Codex Christopher A. Faraone, Sofia Torallas-Tovar, 2026-04-21 The Bibliothèque Nationale de France preserves an extraordinary document a fourth century CE papyrus codex from Upper Egypt This handbook is over seventy inscribed pages long and is equivalent in length to four or five normal sized papyrus rolls But despite its great size it contains only fifty three recipes many of unusual length and complexity Our research team on the Transmission of Magical Knowledge project has been studying re editing and translating all the magical handbooks from Roman Egypt and in the process we have realized that the Paris Codex from Upper Egypt long understood as the typical or model handbook of the age is in fact a marvelous outlier in the group The manuscript was probably never used for the preparation of quotidian magical spells but rather as a book to be read and to fire the imagination of its readers We propose in this volume a complete re assessment of GEMF 57 not only of its materiality scribal production and its language but also of its composition in different blocks coming from divergent exemplars The book is distributed into five sections 1 Materiality of GEMF 57 including codicology paleography and scribal practice 2 Language and Rhetoric 3 Poetry on the metrical sections 4 Special sections including chapters on the Mithras Liturgy the collapse of Solomon and the Epistolary section 5 Special topics on astrology and Egyptian influence

The Akragas Dialogue Monica De Cesare, Elisa Chiara Portale, Natascha Sojc, 2020-02-24 The papers of this volume focus on the sacred landscapes of ancient Sicily Religious and cultural dimensions of Greek sanctuaries are assessed in light of the results of recent excavations and new readings of literary sources The material dimension of cult practices in ancient sanctuaries is the central issue of all contributions with a focus on the findings from ancient Akragas Great attention is also paid to past ritual activities which are

framed in three complementary areas of enquiry Firstly the architectural setting of sanctuaries is examined beyond temple buildings to assess the wider context of their structural and spatial complexity Secondly the material culture of votive deposition and religious feasting is analysed in terms of performative characteristics and through the lens of anthropological approaches Thirdly the significance of gender in cultic practice is investigated in light of the fresh data retrieved from the field The new findings presented in this volume contribute to close the existing research gaps in the study of sanctuaries in Sicily as well as the wider practice of Greek religion [Les Livres disponibles](#) ,2003 La liste exhaustive des ouvrages disponibles publi s en langue fran aise dans le monde La liste des diteurs et la liste des collections de langue fran aise
