

OBJECT: For the player who acts as the Miami Vice Team, the object of the game is for him to apprehend the criminals forces (cars) and/or to get to the target drop before the criminal does.

For the player who acts as the criminals team, the object of the game is to get to the target drop before the Miami Vice team does and if possible, to eliminate the Miami Vice forces (cars).

RULES: Each player is given ten cars, each representing members of their forces (black or blue—Miami Vice, red or yellow—criminals), then the criminal chooses one card face down from the drop pile and keeps it as his target point, unknown to the Miami Vice players. The criminal then proceeds to throw the die and enters one of his cars from the criminal starting point specified on the playing board, he will subsequently enter each of his cars at that point to enter them in the game, upon his turns. After the criminal has made his first move, the Miami Vice player will throw the die, and enter one of his cars onto the playing board from the starting point matching his car color, and will subsequently, upon his turns, enter each of his cars at that point on the playing board. Each player will move in turn, the amount designated by the die and follow only the paths decreed by the streets on the map, in pursuit of his destination, which is only known to the criminal. Each player has the option of entering new cars on each throw of the die or following up on the same cars to gain distance. Criminals spread out their forces (cars) throughout the board as decoys for Miami Vice in their pursuit of their target Drop Point.

Of the 12 possible target drops designated on the map, only one is to be used by the criminals, therefore, the Miami Vice

player must use his strategy to pursue this drop and eliminate the criminals along the way.

When a player lands on a Drop Point, the criminal must announce whether or not it is his target Drop Point.

RULES FOR 3 OR 4 PLAYERS: When three or four players play, two must be criminals, and each chooses a secret drop point. It's every man for himself! The first player to land on the target drop point or to eliminate all of his opponents wins the game.

GAMBLE POINTS: Players can move in any direction as long as they follow the paths of the game board. Throughout the board are Gamble points which are marked by red circles. If a player lands on one of these, he picks a gamble card from the pile and acts on whatever the card says.

WARRANT: This card is lucky for the bearer as it enables the bearer to control the results of a confrontation, therefore if the bearer has landed on another player he does not have to spin the spinner, he instead, presents his warrant card and the player who was landed on is sent back to start. If the bearer is the player who has landed on he also may disregard the spinner and send the landing player back to start.

SHOOTING INCIDENT: This card automatically places bearer back at his starting point.

UNDER COVER: This card provides the bearer with the means to discard of any one of his opponents' cars which is then placed in the discard tray.

SURVEILLANCE: This card allows the opponents to place any one of the bearer's cars back at start.
