The International Tailor ..., 1923 **Asian Regionalism in the World Economy** Masahiro Kawai, Jong-Wha Lee, Peter A. Petri, 2010-01-01 The structure and policy architecture of the world economy as it emerges from the historic challenges now underway will be affected by the dramatic rise of Asian economies and deepening connections among them. This important book examines the dramatic transformation of the Asian economy, the challenges it faces, emerging regional solutions, and how Asia can play a more constructive role in the global economy. In each of these areas, the contributing authors evaluate current trends and the forces shaping the future. They consider whether the region's progress is sustainable and what it will take to make it so. How is Asia reshaping its economy in response to the changing global landscape? More urgently, how can Asia weather the severe global financial and economic storm originating from the global credit crisis? How will it extend its gains to people left behind? And how can it contribute to better governance and greater prosperity in the world economy?
