Global Marketing Strategy Bodo B. Schlegelmilch, 2022-02-16

This book has been written for experienced managers and students in postgraduate programs such as MBA or specialized master's programs. In a systematic yet concise manner, it addresses all major issues companies face when conducting business across national and cultural boundaries, including assessing and selecting the most promising overseas markets, evaluating market entry alternatives, and examining the forces that drive adaptation versus standardization of the marketing mix. It looks at the various global marketing challenges from a strategic perspective and also addresses topics not usually found in international marketing texts, such as aligning marketing strategies with global organizational structures and managing the relationship between national subsidiaries, regional headquarters, and global headquarters, as well as corporate social responsibility challenges and pertinent future trends that are likely to affect global business. A guide to suitable video resources giving additional background to this book can be downloaded by all readers by contacting the author. Instructors can also obtain additional support material for teaching. Please email Bodo Schlegelmilch at WU Vienna using your institutional email and stating your university affiliation. More than 400 PowerPoint slides covering the material in each chapter, Open-Ended Questions, a comprehensive multiple-choice test bank with solutions.

Global Risk Agility and Decision Making Daniel Wagner, Dante Disparte, 2016-08-12 In *Global Risk Agility and Decision Making* Daniel Wagner and Dante Disparte two leading authorities in global risk management make a compelling case for the need to bring traditional approaches to risk management and decision making into the twenty first century Based on their own deep and multi faceted experience in risk management across numerous firms in dozens of countries the authors call for a greater sense of urgency from corporate boards decision makers line managers policymakers and risk practitioners to address and resolve the plethora of challenges facing today s private and public sector organizations Set against the era of manmade risk where transnational terrorism cyber risk and climate change are making traditional risk models increasingly obsolete they argue that remaining passively on the side lines of the global economy is dangerous and that understanding and actively engaging the world is central to achieving risk agility Their definition of risk agility taps into the survival and risk taking instincts of the entrepreneur while establishing an organizational imperative focused on collective survival The agile risk manager is part sociologist anthropologist psychologist and quant Risk agility implies not treating risk as a cost of doing business but as a catalyst for growth Wagner and Disparte bring the concept of risk agility to life through a series of case studies that cut across industries countries and the public and private sectors The rich real world examples underscore how once mighty organizations can be brought to their knees and even their demise by simple miscalculations or a failure to just do the right thing The reader is offered deep insights into specific risk domains that are shaping our world including terrorism cyber risk climate change and economic resource nationalism as well as a frame of reference from which to think about risk management and decision making in our increasingly complicated world This easily digestible book will shed new light on the often complex discipline of risk management Readers will learn how risk management is being transformed from a business prevention function to a values
