Teaching Toward Slow Hope Douglas Haynes, 2026-03-10 Reimagining college as a space for connection meaning and collective resilience Teaching Toward Slow Hope reveals what happens when higher education dares to become something more than transactional Rather than positioning education as a financial investment this book reimagines college as a space where students cultivate the skills and relationships needed for collaborative survival in an increasingly unpredictable world Against a backdrop of mental health crises ecological instability and structural inequality Douglas Haynes traces how students and educators across the Upper Midwest are remaking college into a place for connection meaning and collective resilience Through on the ground reporting and interviews with students Haynes describes the impacts of dynamic place based educational programs He takes readers on a journey from urban gardens in Milwaukee to restored oak savannas in Madison and from a community food hub in Kalamazoo to the shore of Lake Superior At the heart of the programs he visits is a shared commitment to what Haynes calls practices of slow hope deep listening reciprocity collaboration and embodied learning Haynes evokes the experiences of students harvesting native seeds cooking with local produce gathering community histories and learning to see their landscapes anew Many of these students are first generation or struggling with anxiety or affording college From their experiences emerges a deeply human story of transformation based in place community and care Teaching Toward Slow Hope offers educators administrators and anyone invested in the future of higher education a powerful new lens for thinking about what college is really for
