Using a mixed-method approach, the authors examine the underexplored business side of YouTube with a focus on product review videos, brand videos, sponsored videos, and online video advertising. This book also addresses recent developments such as YouTube Red, subscription pay TV, and movie services and discusses the future of online video audience research. Drawing on decades of research, the authors weave together personalities, popular shows, corporate strategies, historical events, and changing technologies, enhancing the main commentary with additional elements that include fall prime-time schedule grids for every season, date-box timelines, highlighted key text, and selected photos. Full of facts, first insights, and exploits from now back to the earliest days, Watching TV is the standard chronology of American television, and reading it is akin to channel surfing through history.
