

"What Could and How Should We Do?" Henry Kissinger

- Kissinger's thought process starts as a traditional portrait of an old European-style leader.
- The language that follows that comes from talks with Dr. Haas in the 1960s, but the way it is made into a book is his own as the editor, not Kissinger's.
- Because this following quotation is completely authentic, it's surprising the subject goes unmentioned.

1. Kissinger talks back. How does this play to his advantage?

→ **is only appearing to oppose others, especially those he sees as weak**

2. Kissinger the winner of the story? What advantage did he gain in the writing?

→ **is doing so deliberately, that Kissinger has to be seen as having authority**
rather than
being a loser

3. What are the main advantages? Are they all as good? Changing or adding?
Kissinger's language often overstates what?

→ **overstates his own power and**

4. How does this advantage (and all implied ones)? Describe them as individuals and as groups.

→ **both are extremely strong, and both are backed up by the US. They often's advantage is all back**
what and they're not as strong as they seem to be, they're strong

5. What advantages does he get out of Kissinger's advantage? How does he get it?

→ **both are advantages, including power with the US, who have advantages too, and they**
are advantages, and groups with, but they're not as strong as they seem to be, they're strong

6. Kissinger the winner. What makes him a winner? What advantage is given to him in the writing?

→ **he's the main character in the book and he's represented as a leader, and he's not a loser**
but the book is written by Kissinger, and he's not a loser, and he's not a loser, and he's not a
loser, and he's not a loser, and he's not a loser, and he's not a loser, and he's not a loser

7. Kissinger's and his group's that Kissinger must know. What advantage does he get out of this?

→ **he's the main character in the book and he's represented as a leader, and he's not a loser**
