guide to preparation that connects the fundamentals of film script analysis with the actor's process of preparation. This book starts with how to identify the overall scope of a project from the creative perspective of the director as it relates to guiding an actor before providing a blueprint for preparation that includes script analysis, previsualization, and procedures for rehearsal and capture. This methodology allows the director to uncover the similarities and differences between actor and director in their preparation to facilitate the development of a collaborative dialogue. Featuring chapter by chapter exercises and assignments throughout, this book provides a method that enables the director to be present during every stage of production and seamlessly move from prep to filming while guiding the actor to their best performances. Written in a clear and concise manner, it is ideal for students of directing, early career and self-taught directors, as well as cinematographers, producers, or screenwriters looking to turn their hand to directing for the first time.

[Directing Actors - 25th Anniversary Edition - Case Bound](#) Judith Weston, 2021-04-06 Collaborating with actors is for many filmmakers the last frontier, the scariest part, and the part they long for: the human part, the place where connection happens. *Directing Actors 25th Anniversary Edition* covers the challenges of the actor-director relationship, the pitfalls of result direction, breaking down a script, how to prepare for casting sessions, when, how, and whether to rehearse, but with updated references, expanded ideas, more detailed chapters on rehearsal and script analysis using a scene from *The Matrix*, and a whole new chapter on directing children. For twenty-five years, the industry standard for instilling confidence in filmmakers, *Directing Actors* perseveres in its mission to bring directors, actors, and writers deeper into the exhilarating task of creating characters the world will not forget.

Changing Direction: A Practical Approach to Directing Actors in Film and Theatre Lenore DeKoven, 2006-02-07 This approach, honed after years of on-set experience and from teaching at UCLA, NYU, and Columbia, and endorsed by many in the industry, including director Ang Lee (*Brokeback Mountain* and *Crouching Tiger, Hidden Dragon*) and producer-actor Edward Asner, aims to provide a helpful reference and resource for directors and actors alike. It combines underlying theory with dozens of exercises designed to reveal the actor's craft. There is material on constructing the throughline, analyzing the script, character needs, the casting and rehearsal processes, film vs. theater procedures, as well as the actor and the camera. Distilling difficult concepts and a complex task to their simplest form, the author explains how to accurately capture and portray human behavior. The author's discussion of creative problems she has encountered or anticipated after years of experience, and her suggested solutions and exercises, are immediately useful. Additionally, hear what the actors have to say in excerpts from interviews with such acclaimed actors as Meryl Streep, Denzel Washington, Glenn Close, Robert Redford, Christopher Walken, Julianne Moore, and Michael Douglas, to name a few, who discuss their work with directors, what inspires them, and what they really want from the director.
