

What is a Map?

Maps are flat drawings that show us where to find places. A map always gives us a bird's eye view. That means that map is a drawing of a place from above. Long ago, the first maps were made in the dirt. Now maps are on paper or on computers. There are many different kinds of maps. A world map shows the whole Earth. Some maps can show us small areas like your neighborhood. We use directions on a map. The top of a map is north. The bottom is south. East is to the right. West is to the left.

This map shows a large area of land called a continent. The continent shown is North America. This map also shows large areas of water. They are called oceans.
