Student's Name: _____

Goodreads is a single site with a big, colorful catalog that lists every book ever published in the world. It's like a giant library, but it's online. You can find out what books are popular, what books are new, and what books are being read by people who look like you. It's a great place to find books to read, and it's a great place to share your thoughts on books with other readers.

They wanted a place where they could find books to read, and where they could share their thoughts on books with other readers. They decided to create a website that would do both of these things. They called it Goodreads.

At first, Goodreads was just a simple website with a few books and some reviews. But it grew so fast that it soon had millions of books and millions of reviews. Today, Goodreads is one of the most popular book websites in the world. It has helped millions of people find books to read, and it has helped millions of people share their thoughts on books with other readers. For the Love of Reading Nancy L. Baumann, 2013-10-17 This insightful book reviews the current research on literacy programming, examines the latest standards for strengthening reading skills and provides educators, families and caregivers methods for building successful reading habits in and out of the classroom. Research indicates that children need more than classroom instruction to become proficient readers. Unfortunately few parents realize how simple everyday practices can build a lifelong love of reading. Educators diligent with employing mandatory literacy standards may overlook families and support systems as tools for improving student performance. This book provides a comprehensive overview of the various methods of reading instruction, analyzing the pedagogy behind Sustained Silent Reading (SSR), the importance of reading aloud to children and the necessity of working the home-school connection. *For the Love of Reading: Guide to K-8 Reading Promotions* provides strategies and tips for setting up successful reading environments for children including having a well-stocked library collection, engaging students through book clubs, reading lists and prepared book talks and involving student and adult volunteers. The author asserts that the entire school community—teachers, librarians, parents, caregivers and administrators—must work together to promote literacy.
