Fundamentals of Corporate Finance Stephen A. Ross, Bradford D. Jordan, Randolph Westerfield, Gordon Sam Roberts, J. Ari Pandes, Thomas A. Holloway, 2021 When the three of us decided to write a book, we were united by one strongly held principle: Corporate finance should be developed in terms of a few integrated, powerful ideas. We believed that the subject was all too often presented as a collection of loosely related topics unified primarily by virtue of being bound together in one book, and we thought there must be a better way. One thing we knew for certain was that we didn't want to write a me-too book. So with a lot of help, we took a hard look at what was truly important and useful. In doing so, we were led to eliminate topics of dubious relevance, downplay purely theoretical issues, and minimize the use of extensive and elaborate calculations to illustrate points that are either intuitively obvious or of limited practical use.

The Best Service is No Service Bill Price, David Jaffé, 2011-09-14 In this groundbreaking book, Bill Price and David Jaffe offer a new game-changing approach showing how managers are taking the wrong path and are using the wrong metrics to measure customer service. Customer service, they assert, is only needed when a company does something wrong. Eliminating the need for service is the best way to satisfy customers. To be successful, companies need to treat service as a data point of dysfunction and figure out what they need to do to eliminate the demand. *The Best Service Is No Service* outlines these seven principles to deliver the best service that ultimately leads to no service: Eliminate dumb contacts, Create engaging self-service, Be proactive, Make it easy to contact your company, Own the actions across the company, Listen and act, Deliver great service experiences.
