

## Back Bay Battery Simulation

### I- Case overview

As business unit managers at Back Bay Battery, we attempted to manage the firm efficiently and achieve positive cash flows for the period 2013-2020. The firm sells two types of batteries: NiMH and Ultracapacitor. With regard to NiMH, sales are continuously growing due to consumer demand. However, there is a lot of competition in this field so some logical strategies should be taken to sustain its competitive advantages. On the other hand, the Ultracapacitor is a new technology for which the market share is not as high as the NiMH batteries, but has very bright prospects, especially in the power tools market.

Our main mission is to identify the most reliable strategy for the the firm to prosperously handle various challenges and explore their new market. As such, R&D spending budgets and price level must be managed on the span of 8 years. A main concern arose as soon as we started to run our simulations: should we invest in existing, strong market shares, and high sales projects like the NiMH or develop the UC, a new battery technology, to its full potential? Indeed, the business's main problem was getting a good balance between R&D spending for NiMH which is an existing product and the new Ultracapacitor. After playing 8-10 runs each, we evidenced the decisions that would benefit the firm the most. This paper addresses the winning strategy we chose to follow so as to avoid going bankrupt, maximize profit, and increase market penetration and sales..

### II- Winning strategy - Focus on new product development (\$239Mn)

This strategy is structured around aggressive investments in the features of the Ultracapacitor (UC). At first, it focuses the R&D budget on energy density for UC to increase sales of power tools and two-way radios because from the data given to us, these are the most desired characteristics that customers want and that can attract new clients. Similarly, we focused on investing in self-discharge R&D for UC to increase the sales of power packs. We used NiMH as a cash cow to generate revenue, that will later be invested in R&D for UC.

As such, we anticipate the decrease in sales of the NiMH by penetrating the power tools market with the UC; then, we invest in UC process improvement to decrease its variable costs per unit to make it profitable. While investing in the features of UC, we were investing in process improvement for NiMH so that we can make a profit when prices are driven down by market demand (process improvement investments will decrease the variable cost per unit of NiMH batteries). At the middle of the simulation, after the UC becomes market leader due to its enhanced features, we switched the focus of the investment to UC process improvement to decrease its price and retain market share.

We envisioned this strategy before starting the simulation and we focused on the consistency of our choices over the span of the activity; yet, we had to micro-manage the R&D budget and price changes to be reactive to the yearly dynamics of the market. These micro-changes were learnt by trial-and-error, since 11 simulations were run before the winning scenario; as such, we prioritised on consistency, that we believe is key to achieve innovation breakthroughs and hence superior profit margins.

The following is the timeline of the simulation for our winning strategy. All decisions are made at the end of the year.

- **2013:** We start by increasing the price of the UC from \$20 to \$25, while the price of the NiMH stays at \$10. Price for the UC is very inelastic since it is a new technology. We noticed this by trial-and-error from our previous simulations. By increasing the price, we cover the R&D expenditure for the two products. The R&D budget (\$10Mn) is described in Appendix I.

Sales for power tools are affected positively by 20%, as expected. Two way radios and power pack sales decreased by respectively 12% and 24% because we neither reduced the price of the cash cow (NiMH) nor invested in new features. Our sales were affected since NiMH has a big part in the sales portfolio. Yet, this will not affect our strategy since we are determined to be consistent with the long-term view we described previously (divest the old NiMH to invest in the new UC). As such, for 2014, no changes to the R&D budgets and prices for the two products are recorded.

- **2014:** We observe an increase in the sales of UC due to the new features, but a slow decrease in the sales of NiMH due to the power tools and two way radios markets reaching maturity, as suggest the following figure. We want to further penetrate the power packs market by shifting our R&D investment into self-discharge. The new R&D budget (\$10Mn) is described in Appendix I.

### **Back Bay Battery Simulation Winning Strategy Introduction**

In the digital age, access to information has become easier than ever before. The ability to download Back Bay Battery Simulation Winning Strategy has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Back Bay Battery Simulation Winning Strategy has opened up a world of possibilities. Downloading Back Bay Battery Simulation Winning Strategy provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Back Bay Battery Simulation Winning Strategy has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Back Bay Battery Simulation Winning Strategy . These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Back Bay Battery Simulation Winning Strategy . Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Back Bay Battery Simulation Winning Strategy , users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To

protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Back Bay Battery Simulation Winning Strategy has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.
