Thomas Cromwell Diarmaid MacCulloch, 2018-10-30 The long awaited biography of the genius who masterminded Henry VIII's bloody revolution in the English government which reveals at last Cromwell's role in the downfall of Anne Boleyn This a book that and it's not often you can say this we have been awaiting for four hundred years Hilary Mantel author of *Wolf Hall* Since the sixteenth century we have been fascinated by Henry VIII and the man who stood beside him guiding him enriching him and enduring the king's insatiable appetites and violent outbursts until Henry ordered his beheading in July 1540 After a decade of sleuthing in the royal archives Diarmaid MacCulloch has emerged with a tantalizing new understanding of Henry's mercurial chief minister the inscrutable and utterly compelling Thomas Cromwell History has not been kind to the son of a Putney brewer who became the architect of England's split with Rome Where past biographies portrayed him as a scheming operator with blood on his hands Hilary Mantel reimagined him as a far more sympathetic figure buffered by the whims of his master So which was he the villain of history or the victim of her creation MacCulloch sifted through letters and court records for answers and found Cromwell's fingerprints on some of the most transformative decisions of Henry's turbulent reign But he also found Cromwell the man an administrative genius rescuing him from myth and slander The real Cromwell was a deeply loving father who took his biggest risks to secure the future of his son Gregory He was also a man of faith and a quiet revolutionary In the end he could not appease or control the man whose humors were so violent and unpredictable But he made his mark on England setting her on the path to religious awakening and indelibly transforming the system of government of the English speaking world

All Things Made New Diarmaid MacCulloch,2016 The most profound characteristic of Western Europe in the Middle Ages was its cultural and religious unity a unity secured by a common alignment with the Pope in Rome and a common language Latin for worship and

scholarship The Reformation shattered that unity and the consequences are still with us today In All Things Made New Diarmaid MacCulloch author of the New York Times bestseller Christianity The First Three Thousand Years examines not only the Reformation's impact across Europe but also the Catholic Counter Reformation and the special evolution of religion in England revealing how one of the most turbulent bloody and transformational events in Western history has shaped modern society The Reformation may have launched a social revolution MacCulloch argues but it was not caused by social and economic forces or even by a secular idea like nationalism it sprang from a big idea about death salvation and the afterlife This idea that salvation was entirely in God's hands and there was nothing humans could do to alter his decision ended the Catholic Church's monopoly in Europe and altered the trajectory of the entire future of the West By turns passionate funny meditative and subversive All Things Made New takes readers onto fascinating new ground exploring the original conflicts of the Reformation and cutting through prejudices that continue to distort popular conceptions of a religious divide still with us after five centuries This monumental work from one of the most distinguished scholars of Christianity writing today explores the ways in which historians have told the tale of the Reformation why their interpretations have changed so dramatically over time and ultimately how the contested legacy of this revolution continues to impact the world today

The Reformation in National Context Robert Scribner, Roy Porter, Mikulas Teich, 1994-06-09 The collection of essays by prominent historians of the Reformation explores the experience of religious reform in national context discussing similarities and differences between the reform movements in a dozen different countries of sixteenth century Europe Each author provides an interpretative essay emphasising local peculiarities and national variants on the broader theme of the Reformation as a European phenomenon The individual essays thus emphasise the local preconditions and limitations which encountered the Reformation as it spread from Germany into most of the countries of western and central Europe Together they present a picture of the many sided nature of the Reformation as it grew up in each national context The book includes examples of countries where the Reformation was strikingly successful as well as those where it failed to make an impact A final comparative essay seeks to understand the different Reformations as variations on an overall theme This volume forms part of a sequence of collections of essays which began with *The Enlightenment in national context* 1981 and has continued with *Revolution in history* 1986 *Romanticism in national context* 1988 *Fin de siecle and its legacy* 1990 *The Renaissance in national context* 1991 *The Scientific Revolution in national context* 1992 and *The national question in Europe in historical context* 1993 The purpose of these and other envisaged collections is to bring together comparative national and interdisciplinary approaches to the history of great movements in the development of human thought and action

Defending the Faith Angela Ranson, André A. Gazal, Sarah Bastow, 2018-11-09 This volume brings together a diverse group of Reformation scholars to examine the life work and enduring significance of John Jewel bishop of Salisbury from 1560 to 1571 A theologian and scholar who worked with early reformers in England such as Peter Martyr Vermigli Martin Bucer and Thomas Cranmer Jewel had a long lasting influence over religious culture and identity The essays included in this book shed light on often neglected aspects of Jewel s work as well as his standing in Elizabethan culture not only as a priest but as a leader whose work as a polemicist and apologist played an important role in establishing the authority and legitimacy of the Elizabethan Church of England The contributors also place Jewel in the wider context of gender studies material culture and social history With its inclusion of a short biography of Jewel s early life and a complete list of his works published between 1560 and 1640 *Defending the Faith* is a fresh and robust look at an important Reformation figure who was recognized as a champion of the English Church both by his enemies and by his fellow reformers In addition to the editors contributors to this volume are Andrew Atherstone Ian Atherton Paul Dominiak Alice Ferron Paul A Hartog Torrance Kirby W Bradford Littlejohn Aislinn Muller Joshua Rodda and

Lucy Wooding Literature and politics in the English Reformation Tom Betteridge, 2017-10-03 This book is a study of the English Reformation as a political and literary event Focusing on an eclectic group of texts unified by their explication of the key elements of the cultural history of the period 1510-1580 the book unravels the political poetic and religious themes of the era Through readings of work by Edmund Spenser William Tyndale Sir Thomas More and John Skelton as well as less celebrated Tudor writers Betteridge surveys pre-Henrician literature as well as Henrician Reformation texts and delineates the literature of the reigns of Edward VI Mary Tudor and Elizabeth I Ultimately the book argues that this literature and the era should not be understood simply on the basis of conflicts between Protestantism and Catholicism but rather that Tudor culture must be seen as fractured between emerging confessional identities and marked by a conflict between those who embraced confessionalism and those who rejected it This important study will be fascinating reading for students and researchers in early modern English literature and history

All Things Made New Diarmaid MacCulloch, 2016-07-07 A brilliant kaleidoscope on the Reformation from its leading scholar and one of the best historians writing in English today Sunday Telegraph The Reformation which engulfed England and Europe in the sixteenth century was one of the most highly charged bloody and transformative periods in their history Ever since it has remained one of the most contested Diarmaid MacCulloch is one of the leading British historians of this turbulent and endlessly fascinating era Many essays in this volume expand upon his now classic Reformation Europe's House Divided tracing for example the evolution of the English Prayer Book and Bible or reassessing the impact of the Reformation on Catholicism Henry VIII and his archbishop Thomas Cranmer are both central presences and MacCulloch swiftly dispatches some of the received wisdom about them Throughout the book he brilliantly undermines one persistent English tradition of interpreting the Reformation that it never really happened and establishes that Anglicanism was really a product of Charles II's Restoration in 1660 rather than the Elizabethan Settlement of 1559 The inexhaustible variety of the Reformation is seen in a delightful mix of writings on angels Protestant opinions about the Virgin Mary and such diverse personalities as William Byrd John Calvin and the extraordinary seventeenth-century forger Robert Ware some of whose malicious fantasies have polluted parts of Reformation history ever since All Things Made New shows Diarmaid MacCulloch at his best learned far-seeing sometimes subversive and often witty At the end of his essay on the great Elizabethan divine Richard Hooker he writes The disputes which currently wrack Western Christianity are superficially about sexuality social conduct or leadership style at root they are about what constitutes authority for Christians The contest for the soul of the Church in the West rages around the question as to how a scripture claiming divine revelation relates to those other perennial sources of human revelation personal and collective consciousness and memory whether indeed there can be any relationship between the two There is much wisdom as well as much enjoyment in this book

Monks, the Pope, and the Origins of the Crusades Diarmaid MacCulloch, 2013-11-05 A fascinating history of the growth in monastic and papal power that preceded the Crusades excerpted from Diarmaid MacCulloch's award-winning New

York Times bestseller *Christianity The First Three Thousand Years* A product of electrifying scholarship conveyed with commanding skill Diarmaid MacCulloch's *Christianity The First Three Thousand Years* stretches from the Greek Platonists and the origins of the Hebrew Bible to the present and encompasses the globe In this excerpt MacCulloch chronicles the rise of monasteries like the great Cluny Abbey which formed orders that reached across secular kingdoms enjoying exclusive papal privileges and encouraging their followers to make pilgrimages among towering cathedrals and far flung shrines Meanwhile the introduction of the tithe expanding control over marriage and a new emphasis on Purgatory brought penitent parishioners even closer to the Church and dependent on ministry By the time Pope Urban II launched the First Crusade the practice of indulgences had made possible his grant that all who died in a state of repentance and confession while fighting would gain immediate entry into heaven Holy War spawned whole new orders most famously the Knights Templar and the Knights Hospitaller as soldiers from across Europe joined the campaigns of conquest toward Jerusalem The many causes and consequences of these clashes between Christianity and Islam are captured here in illuminating detail with elegance and wit Diarmaid MacCulloch's latest book *Silence A Christian History* is available from Viking Thomas Cromwell Diarmaid MacCulloch, 2018 The decade was one of the most momentous in English history it saw a religious break with the Pope unprecedented use of parliament the dissolution of all monasteries and the coming of the Protestantism which decisively shaped the future of this country Cromwell was central to all this but establishing his role with precision at a distance of nearly 500 years and after the destruction of many of his papers at his own fall has been notoriously difficult Diarmaid MacCulloch's biography draws together national and international events and reveals the channels through which so much of power in early Tudor England flowed It overturns many received interpretations for example that Cromwell and Anne Boleyn were allies because of their common religious sympathies showing how he in fact destroyed her or that Cromwell was a cynical secular politician without deep felt religious commitment It introduces the many different personalities contributing to these foundational years all worrying about what MacCulloch calls the terrifyingly unpredictable Henry VIII and shows how things could easily have turned out differently MacCulloch's biography for the first time reveals his true place in the making of modern England and Ireland for good and ill **New Worlds Reflected** Chloë Houston, 2010 Recent years have seen an explosion of interest in early modern globalization travel and travel literature whilst utopian literature has proved to be a continuing source of fascination for students of the intellectual and literary history of the early modern period Drawing on this growth of interest this volume brings together new work from an international range of scholars working on these fields of research and the interactions between them *New Worlds Reflected* provides a significant contribution both to the history of utopianism and travel and to the wider cultural and intellectual history of the time assembling original essays from those interested in the representations of the globe and new and ideal worlds in the period from 1500 to 1800 and in the imaginative reciprocal responsiveness of utopian and travel writing **A European Elizabethan** David Scott

Gehring,2024-06-24 Robert Beale 15411601 was a diplomat and administrator who worked at the heart of Elizabethan governance and international policymaking In spite or perhaps because of the voluminous record he left behind he has never been the subject of a dedicated biography and his remarkable life and influence have therefore remained hidden By thoroughly investigating Beales personal reference archive which remains largely intact at the British Library and additional material from archives across the UK mainland Europe and the USA this book brings Beales life into sharp focus from his shadowy upbringing in Coventry and London through his first trips to the European mainland in the 1550s and to his prominent roles in Queen Elizabeths government By reconstructing the complex web of transnational connections he forged throughout Europe David Scott Gehring demonstrates for the first time the extent to which these networks and his experiences abroad made him an invaluable agent of the Elizabethan regime In the process Gehring reveals Beales broader significance for our understanding of the workings of Elizabethan government especially the role of second and third level players within it and he recognizes the impossibility of truly understanding Elizabethan England without considering its interactions with and connections to the rest of Europe The book makes a range of novel contributions including to understandings of Elizabethan foreign policy the succession religion political life and intelligence gathering **Rebuilding Jerusalem** Stephen Platten,2007 This book assumes that everyone has a basic religious impulse but that in England the Church has lost the hearts of the English people This did not happen suddenly and this book will examine what happened and how the natural human response to religion can be rekindled Questions and issues to be covered include Why religion still appears to be a natural response within certain parts of Europe How did the English Reformation affect the religious sensibilities of the population The Methodist revival of the 18th Century Evangelical and Tractarian revivals of the 19th Century Secularisation How does one re awaken a sacred view of the world Examples of good practice Reformation Diarmaid MacCulloch,2004-09-02 The Reformation was the seismic event in European history over the past 1000 years and one which tore the medieval world apart Not just European religion but thought culture society state systems personal relations everything was turned upside down Just about everything which followed in European history can be traced back in some way to the Reformation and the Counter Reformation which it provoked The Reformation is where the modern world painfully and dramatically began and MacCulloch s great history of it is recognised as the best modern account
