Today, manufacturing a razor like Gillette Fusion costs nearly identical to that of a razor from 1970. The only real cost of the razor is the cost to be manufactured. As a result, many people have suggested that you build razor handles from plastic.

Manufacturing is responsible for 90 percent of the cost of a razor. The only way to get the manufacturing cost down is to change the design of the razor. Some have suggested that you make an electric razor, or a razor that is made of plastic.
