Actor Network Theory And After:

Actor Network Theory and After John Law, John Hassard, 1999-05-04 Actor network theory is a powerful approach which combines the insights of post structuralism with an analysis of the materials of social life This controversial and path breaking volume extends ANT beyond studies of technology power and organisation to the body subjectivity politics and cultural difference and puts it into cutting edge dialogue with feminism anthropology psychology and economics

Reassembling the Social Bruno Latour, 2007-09-06 Reassembling the Social is a fundamental challenge from one of the world s leading social theorists to how we understand society and the social Bruno Latour s contention is that the word social as used by Social Scientists has become laden with assumptions to the point where it has become misnomer When the adjective is applied to a phenomenon it is used to indicate a stabilized state of affairs a bundle of ties that in due course may be used to account for another phenomenon But Latour also finds the word used as if it described a type of material in a comparable way to an adjective such as wooden or steely Rather than simply indicating what is already assembled together it is now used in a way that makes assumptions about the nature of what is assembled It has become a word that designates two distinct things a process of assembling and a type of material distinct from others Latour shows why the social cannot be thought of as a kind of material or domain and disputes attempts to provide a social explanations of other states of affairs While these attempts have been productive and probably necessary in the past the very success of the social sciences mean that they are largely no longer so At the present stage it is no longer possible to inspect the precise constituents entering the social domain Latour returns to the original meaning of the social to redefine the notion and allow it to trace connections again It will then be possible to resume the traditional goal of the social sciences but using more refined tools Drawing on his extensive work examining the assemblages of nature Latour finds it necessary to scrutinize thoroughly the exact content of what is assembled under the umbrella of Society This approach a sociology of associations has become known as Actor Network Theory and this book is an essential introduction both for those seeking to understand Actor Network Theory or the ideas of one of its most influential proponents

Applying the Actor-Network Theory in Media Studies Spöhrer, Markus, Ochsner, Beate, 2016-08-24 Actor Network Theory ANT originally a social theory seeks to organize objects and non human entities into social networks Its most innovative claim approaches these networks outside the anthropocentric view including both humans and non human objects as active participants in a social context because of this the theory has applications in a myriad of domains not merely in the social sciences Applying the Actor Network Theory in Media Studies applies this novel approach to media studies This publication responds to the current trends in international media studies by presenting ANT as the new theoretical paradigm through which meaningful discussion and analysis of the media its production and its social and cultural effects Featuring both case studies and theoretical and methodical meditations this timely publication thoroughly considers the possibilities of these disparate yet divergent fields This book is intended for use

by researchers students sociologists and media analysts concerned with contemporary media studies **Actor-Network Theory** Mario Ziemkendorf, 2008-08 Seminar paper from the year 2007 in the subject Communications Theories Models Terms and Definitions grade 2 3 Technical University of Ilmenau Institute of Media and Communication Science course Organisational Communication 16 entries in the bibliography language English abstract In these days nearly everybody knows different kinds of networks There are networks all around us They accompany us at home at work on travelling or in our free time Almost none network is separated and stands for its own even insulated monks are influenced by the outside world The whole world is subdivided in networks which are more or less complex They are all connected in different ways so that every network overlaps another network Bruno Latour hits the bulls eye with the following statement With the new popularization of the word network it now means transport without deformation and an instantaneous unaffected access to every piece of information Latour 1999 p 15 This term paper concerns with the Actor Network Theory shortly called ANT ANT sometimes specified as sociology of translation is primarily connected with the work of representatives like Bruno Latour Michael Callon and John Law The essential characteristic of ANT is the equitable analysis of human and nonhuman actors They will be esteemed as equal actors in networks which want to achieve a common purpose The opening chapter of this term paper will give you a rough historical overlook of ANT Before the main ideas of ANT will disclose the relevant specifics about ANT will be presented which are also the premises of ANT Then detailed information about several key concepts of ANT will be added In the end the critical points and a short conclusion of ANT will conclude this work

Researching Education Through Actor-Network Theory Tara Fenwick, Richard Edwards, 2012-03-06 Researching Education Through Actor Network Theory offers a new take on educational research demonstrating the ways in which actor network theory can expand the understanding of educational change An international collaboration exploring diverse manifestations of educational change Illustrates the impact of actor network theory on educational research Positions education as a key area where actor network theory can add value as it has been shown to do in other social sciences A valuable resource for anyone interested in the sociology and philosophy of education Educational Leadership, Management, and Administration through Actor-Network Theory Paolo Landri, 2020-11-05 Educational Leadership Management and Administration through Actor Network Theory presents how actor network theory ANT and the related vocabularies have much to offer to a critical re imagination of the dynamics of management in education and educational leadership It extends the growing contemporary perspective of ANT into the study of educational administration and management This book draws on case studies focusing on new configurations of educational management and leadership It presents new developments of ANT After ANT and Near ANT and clarifies how these sensibilities can contribute to thinking critically and intervening in the current dynamics of education The book proposes that ANT can offer an ecological understanding of educational leadership which is helpful in abandoning the narrow humanistic world of managerialism

considering a post anthropocentric scenario where it is necessary to compose together new liveable assemblages of humans and nonhumans This book will be of great interest to academics scholars and post graduate students in the fields of educational management leadership and administration as well as education policy It will also be highly relevant to policy makers and experts of education policy at the national European and international levels

Actor-Network Theory in Education Tara Fenwick, Richard Edwards, 2010-07-02 Actor Network Theory ANT has enjoyed wide uptake in the social sciences in the past three decades particularly in science and technology studies and is increasingly attracting the attention of educational researchers ANT studies bring to the fore the material objects of all kinds and de centre the human and the social in educational issues ANT sensibilities are interested in the ways human and non human elements become interwoven Since its first introduction actor network theory has undergone significant shifts and evolutions and as a result it is not considered to be a single or coherent theoretical domain but as developing diversely in response to various challenges This book offers an introduction to Actor Network Theory for educators to consider in three ways One mode is the introduction of concepts approaches and debates around Actor Network Theory as a research approach in education A second mode showcases educational studies that have employed ANT approaches in classrooms workplaces and community settings drawn from the UK USA Canada Europe and Australia These demonstrate how ANT can operate in highly diverse ways whether it focuses on policy critique curriculum inquiry engagements with digital media change and innovation issues of accountability or exploring how knowledge unfolds and becomes materialized in various settings A third mode looks at recent after ANT inquiries which open an array of important new approaches Across these diverse environments and uptakes the authors trace how learning and practice emerge show what scales are at play and demonstrate what this means for educational possibilities

Actor-Network Theory and Crime Studies Dominique Robert, Martin Dufresne, 2016-03-23 Developed by Bruno Latour and his collaborators actor network theory ANT offers crimes studies a worthy intellectual challenge It requires us to take the performativity turn consider the role of objects in our analysis and conceptualize all actants human and non human as relational beings Thus power is not the property of one party but rather it is an effect of the relationships among actants This innovative collection provides a series of empirical and theoretical contributions that shows The importance of conceptualizing and analyzing technologies as crucial actants in crime and crime control The many facets of ANT its various uses its theoretical blending with other approaches its methodological implications for the field The fruitfulness of ANT for studying technologies and crime studies its potential and limitations for understanding the world and revamping crime studies research goals Students academics and policy makers will benefit from reading this collection in order to explore criminology related topics in a different way

Engaging with Actor-Network Theory as a Methodology in Medical Education Research Bethan Mitchell, 2021-03-15 This book outlines a methodology based on actor network theory ANT and praxiography and applies this to the field of medical education Drawn from a detailed account of practice in a medical setting

this book shows how researchers in education and medical education can learn to work with ANT approaches and attune to different insights in practice The book gives a detailed account of what actor network theory can bring to research through the investigation of social and material networks The philosophical underpinnings of actor network theory are presented as the basis of this emerging methodology through an exploration of learning as disruption practice as human and material assemblages and power as regulated difference in worlds of practice This is a qualitative approach for exploring complexity that does not attempt to represent or reduce but allows for unique insights into practice that might otherwise be overlooked With a robust grounding in practice and professional learning and actor network theory this book will be of great interest for academics scholars and postgraduate students in the field of research methods and medical education Actor-Network Theory Mario Ziemkendorf,2008-08-29 Seminar paper from the year 2007 in the subject Communications Theories Models Terms and Definitions grade 2 3 Technical University of Ilmenau Institute of Media and Communication Science course Organisational Communication language English abstract In these days nearly everybody knows different kinds of networks There are networks all around us They accompany us at home at work on travelling or in our free time Almost none network is separated and stands for it s own even insulated monks are influenced by the outside world The whole world is subdivided in networks which are more or less complex They are all connected in different ways so that every network overlaps another network Bruno Latour hits the bull s eye with the following statement With the new popularization of the word network it now means transport without deformation and an instantaneous unaffected access to every piece of information Latour 1999 p 15 This term paper concerns with the Actor Network Theory shortly called ANT ANT sometimes specified as sociology of translation is primarily connected with the work of representatives like Bruno Latour Michael Callon and John Law The essential characteristic of ANT is the equitable analysis of human and nonhuman actors They will be esteemed as equal actors in networks which want to achieve a common purpose The opening chapter of this term paper will give you a rough historical overlook of ANT Before the main ideas of ANT will disclose the relevant specifics about ANT will be presented which are also the premises of ANT Then detailed information about several key concepts of ANT will be added In the end the critical points and a short conclusion of ANT will conclude this work **Actor Network Theory** Lee Hooper,2013-10-08 Essay from the year 2012 in the subject Communications Technical Communication grade 1 Massey University New Zealand course Kulturanthropologie language English abstract Actor Network Theory ANT is a sociological and anthropological trend that looks to understand the complexities of how technology and society function in relation to each other specifically how the power networks between technology and society work and how they influenced each other Ziemkendorf 2007 pp 1 2 **The Information Commons Handbook** Donald Robert Beagle,Donald Russell Bailey,Barbara Tierney,2006 A practical guide to the new model for library service delivery the Information Commons an umbrella concept describing the physical virtual and cultural environment for new learning communities of students teachers scholars and researchers

Pot/potter Entanglements and Networks of Agency in Late Woodland Period (c. AD 900-1300) Southwestern Ontario, Canada Christopher M. Watts, 2008 Complementary strands of thought are here woven together to further the notion that people and things are entangled in interdependent webs of action and a view of social life as engendered by the ways we apprehend and interact with the material world It is argued that material culture can be considered agential insofar as it serves to condition certain sensory responses from its users An analysis of Late Woodland period pottery production in southwestern Ontario provides a case study over 800 earthenware vessels are analyzed from Iroquoian and Algonquian Western Basin sites The results suggest that Iroquoian potting practices were organized around a design repertoire to which most potters subscribed These patterns contrast with the Western Basin assemblages which hint at a greater degree of design heterogeneity and a wider array of choice The discordant nature of Western Basin decorative practices points to a form of human non human interaction markedly different from the milieu experienced by Iroquoian artisans

Embodying Modernity and Postmodernity Sandra C. Bamford, 2007 This collection of original essays critically examines the relationship between ritual embodiment and social change in the South Pacific Over the past few decades the societies of Melanesia have undergone profound and revolutionary social change Encounters with colonialism postcolonialism and the forces of globalization have put indigenous peoples in touch with processes of state formation late capitalist culture and the emergence of a complex network of transnational identities In addition to shaping the contours of the nation state these developments are having a profound impact on the nature of embodied experience In recent years many Melanesian societies have witnessed the rise of charismatic Christianity changing gender configurations and the growing use of consumerism as a means of defining new social and political hierarchies *Embodying Modernity and Post Modernity* provides detailed analyses of those social changes that are becoming part of contemporary Melanesia Written by experts with first hand fieldwork experience this volume furnishes novel insights concerning the social implications of modernity and postmodernity More specifically it addresses two interrelated themes how the rise of new social and economic forms has influenced the ways in which Melanesians think about experience and act upon their bodies and the ways in which these new forms of bodily experience contribute to the emergence of new social and cultural identities This book is part of the Ritual Studies Monograph Series edited by Pamela J Stewart and Andrew Strathern Department of Anthropology University of Pittsburgh While this volume will be of particular interest for regional specialists and theorists of the body it also makes important contributions to historical analysis of colonial and post colonial

interpretations of modernity and ritual studies The editor also deserves credit for bringing together a cohesive text one in which the articles usefully speak to and complement one another Anthropological Forum This book is a must read for scholars of Melanesia and all scholars of the Anthropology of the Body There is much to be gleaned theoretically from these ethnographically rich essays Oceania

Connectivity, Networks and Flows Andreas Hepp, 2008 This book offers its readers a critical engagement with three key concepts for social and communication theory today connectivity networks and flows The contributors are committed to conceptualizing contemporary communications in a changing world They point to globalizing and deterritorializing processes and to the increasing significance of mobilities in late modern existence yet this is also a book about the continuing importance of locality senses of place and physically copresent interaction in daily living Connectivity Networks and Flows combines theoretical reflection with analysis of specific media and cultural practices Featured examples of such practices include uses of mobile phones and the Internet activities of online and offline working and socializing and constructions of liveness and immediacy in electronically mediated communication The book will be of particular interest to researchers and students in communications media and cultural studies sociology and social theory

BOOK JACKET **The Murmuring of the Artistic Multitude** Pascal Gielen, 2010 Art sociologist Pascal Gielen defends the hypothesis that the globalized art scene is an ideal production entity for economic exploitation These days the work ethic of the art world with its ever present young dynamic flexible working hoursm thematic approach short term contracts or lack of contracts and its unlimited energetic freedom is capitalized within the cultural industry and has been converted into a standard production model In the glow of the crative cities and the creative industry governments embrace this post Henry Ford work model and seamlessly link it to the globally dominant neo liberal market economy Back cover
