Toward Green Economy: Opportunities and Obstacles for Western Balkan Countries M. Radovic-Markovic,Z. Nikitovic,D. Jovancevic,2015-05-22 The green economy represents an important support to economic growth investments and competitiveness Therefore it is considered to be an important alternative in attaining the general wellbeing of the humans which is seen in the decrease of the risk while preserving the environment and using alternative energy sources Atmospheric gases especially carbon dioxide create the greenhouse effect which influences the climate changes They are already generating the extreme weather conditions including powerful hurricanes and floods which have recently affected the Western Balkans Having this in mind this book is created with the intention not only to point out to the extent to which the Western Balkan countries have accepted the concept of green growth but also to see what results are achieved in respect of implementation of this concept with the goal of overcoming the economic and financial crisis and creating the conditions for sustainable growth of this Region Besides this the intention was to emphasise the political economic and legal limitations that are blocking faster development of green economy as well as the possibilities of their overcoming This monograph has a very broad topic range with the goal of comprising the most important aspects and considerations of these issues As the end result of theoretical and research considerations of the author in approximately twenty chapters one gets a clear insight in how the Region has progressed in respect of making the most important sectors green

Development Co-operation Report 2016 The Sustainable Development Goals as Business Opportunities OECD,2016-07-18 The face of development has changed with diverse stakeholders involved and implicated in what are more and more seen as global and interlinked concerns At the same time there is an urgent need to mobilise unprecedented resources to achieve the ambitious Sustainable Development Goals

Inclusive Green Growth Calvin Atewamba,Dorotheé Yong Ngondjeb,2020-05-28 Fostering inclusive green growth in Africa means addressing existing and emerging development challenges while efficiently managing Africa s natural capital and building resilience to environmental social and economic risks Although this new paradigm for development has the potential to create tremendous business opportunities there are also challenges This book provides empirical evidence on the conditions for the emergence of green businesses in Africa It includes 13 case studies which identify the determinants of small and medium size enterprises engagement in inclusive and sustainable growth in rural Africa and the factors that hinder eco innovation in business and entrepreneurial activities Furthermore it discusses appropriate regulations and policies to stimulate the development of green business in Africa Offering insights into the relationship between eco innovation labor productivity and business competitiveness in rural Africa this book appeals to scholars policy makers and practitioners interested in a green economy for Africa

Gendered Approaches to Spatial Development in Europe Barbara Zibell,Doris Damyanovic,Ulrike Sturm,2019-03-27 This book explores the extent to which gendered approaches are evident and effective in spatial development in selected European countries Beginning with an

introduction to theories and concepts of gender space and development the book includes a brief historical review of gender in spatial planning and development throughout Europe in general and an overview of different national frameworks in European countries comparing legal organisational and cultural similarities and differences This is followed by a critical reflection on how simplifications and stereotypes of gender concepts are used in the practice of spatial development The main part of the book offers a transnational discussion of planning practices on selected thematic topics It starts with gender sensitivity in urban master planning and at neighbourhood level referring to different types of planning manuals Furthermore the book focuses on gender sensitive evaluation in urban planning as well as international agendas for sustainable development as a framework for a new generation of gender equality policies The chapter authors assert that climate change migration and austerity have threatened gender equality and therefore spatial development needs to be especially alert to gender dimensions The editors end with an outlook and suggestions for further action and research on gender issues in spatial development With inputs from some of Europe s leading thinkers on gender space and development this volume is designed to inspire students scholars and practitioners to reflect upon the contribution that gendered approaches can make in the various fields of spatial development and environmental planning

[Introducing Foreign Models for Development](#)
Izumi Ohno, Kimiaki Jin, Kuniaki Amatsu, Junichi Mori, 2023-10-03 This open access book studies how foreign models of economic development can be effectively learned by and applied to today s latecomer countries Policy capacity and societal learning are increasingly stressed as pre conditions for successful catch up However how such learning should be initiated by individual societies with different features needs to be explained The book answers this pragmatic question from the perspective of Japan s past experience and its extensive development cooperation in Asia Africa and Latin America Since the late nineteenth century Japan has developed a unique philosophy and method for adopting advanced technologies and systems from the West the same philosophy and method govern its current cooperation with the developing world The key concepts are local learning and translative adaptation Local learning says that development requires the learner to adopt a proactive mindset and the goal of graduating from receiving aid Meanwhile translative adaptation requires foreign models be modified to fit local realities given the different structures of the home and foreign society The development process must be wholly owned by the domestic society in rejection of copy and paste acceptance These ideas not only informed Japan but are key to successful development for all The book also asks how this learning method should or should not be revised in the age of SDGs and digitalization Following the overview section that lays out the general principles the book offers many real cases from Japan and other countries The concrete actions outlined in these cases with close attention to individual growth ingredients as opposed to general theories are crucial to successful policy making The book contains materials that are highly useful for national leaders and practitioners within developing countries as well as students of development studies

The Top Books of the Year Green Economy Dced The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous compelling novels enthralling the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the engaging narratives that have enthralled audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Green Economy Dced : Delia Owens "Where the Crawdads Sing" This mesmerizing coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and suspenseful novel that will keep you wondering until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
