Institutional guide to using AI for research Xue Zhou, Hosam Al-Samarraie, 2025-07-21 This book provides a comprehensive exploration of the integration of artificial intelligence AI into academic research specifically tailored for higher education institutions and postgraduate research PGR students It addresses the unique challenges and opportunities that these institutions and students encounter when incorporating AI into research The work emphasises practical case studies step by step guides on AI tools and techniques ethical considerations in AI usage and features contributions from experts across various disciplines Following the introduction the book delves into the specifics of how AI can enhance academic research such as literature review data analysis and interpretation and assistance in academic writing across different disciplines The wide range of topics introduced in this book is supported by practical examples and guidance This book also explores the landscape of current AI applications in research the methodologies for effectively leveraging AI technologies and the critical ethical dimensions of AI work The importance of interdisciplinary collaboration in expanding the use of AI in research is covered in this book by drawing on expert insights to provide a rich multifaceted understanding of the potential of AI in academia The combination of topics in this book can empower PGR students to navigate the complexities of AI in their research The book is a much needed compilation prepared by leading scholars in the field of digital technology to help PGRs as well as decision makers determine

the best ways to integrate and use AI tools in research

Survival Guide in the AI Era Kewei Li, 2026-03-01 AI Survival Guide is a work that deeply analyzes how artificial intelligence reshapes the workplace It points out that generative AI is rapidly replacing large numbers of low threshold and highly repetitive jobs from customer service and translation to coding video editing administrative tasks and accounting These roles share traits of standardization and repetition which once relied on experience or patience but now appear fragile against algorithms AI not only provides faster and more accurate answers but also simulates empathy generates content and automates complex processes The author reminds readers that survival lies not in clinging to old skills but in becoming commanders of machines mastering cross domain integration decision making and creativity and showing human insight where AI cannot reach This book is both a warning and a guide helping readers find new footholds in times of upheaval

The Permission Mission Dr. Cindy McGovern, 2026-03-24 You were taught to be good Polite Agreeable Grateful You did exactly what you were told and it cost you your voice your choices and your life If you ve been biting your tongue over apologizing saying yes when you meant no or following rules you never agreed to The Permission Mission will help you trust your own voice and take your life back This isn t your life It s the result of compliance You ve walked away from conversations thinking I wish I had said something You ve talked yourself out of the raise the boundary the opportunity the dream because a louder voice yours or someone else s told you not to make waves The Permission Mission is your wake up call and your roadmap if you re tired of living a life that works for everyone but you Dr Cindy McGovern helps you identify the backup singers in your head the old voices expectations unspoken rules and borrowed beliefs that keep drowning out what you actually want Then she hands the microphone back to the only voice that matters yours You ll embark on your own personal permission mission where the insights you gain actually become the momentum you need even when you second guess yourself Because confidence isn t something you re born with It s something you build one brave decision at a time On your journey you ll learn how to Spot the invisible rules you ve been living by and break the ones holding you back Clean out your emotional closet and ditch the old stories rules and doubts that are holding you back Turn fear into forward motion by using imposter syndrome and self doubt as your launchpad not your limitations Own your worth without shrinking over explaining or self editing Say no without guilt yes to what matters and speak up where it counts Get out of your head and out of your own way Advocate for what you want at home at work and in the conversations that shape your future yes even negotiation and selling Give yourself permission instead of asking or waiting for it So whether you re just starting out starting over or simply sick of playing small The Permission Mission gives you the strategy support and spark to finally go after what s yours These pages won t tell you who to be They remind you who you already are This book is your invitation to come back to yourself The only permission you need is your own
