Stem Kits Near Me:

Science-Driven Kids T.S Avini,2025-08-01 Science Driven Kids dives into the essential integration of STEM Science Technology Engineering and Mathematics into the daily lives of children This guide equips parents and educators with strategies to foster a genuine love for STEM in children molding agile problem solvers and innovative thinkers Discover simple experiments using household items that make science engaging and accessible for all Transform your kitchen into a chemistry lab where daily cooking becomes a platform for thrilling scientific exploration Inspire a love of engineering through tailored challenges that teach design and problem solving skills In an era where technology is intertwined with daily activities guide your child through coding basics digital literacy and robotic projects that stimulate creativity and technical skills Encourage a blend of artistic expression and analytical thought by integrating the arts with scientific inquiry Whether your aim is to motivate a future innovator or simply enrich your child's educational experience Science Driven Kids is your roadmap to embedding STEM at the heart of your home Begin a journey today that cultivates curiosity creativity and a lifelong passion for learning in your child

Developing and Sustaining STEM Programs Across the K-12 Education Landscape Spott, Jessica L., Sobehrad, Lane J., Hite, Rebecca L.,2023-08-30 Locally or individually STEM programs provide additional opportunities to engage K 12 students including those from marginalized groups with the support of STEM outreach organizations through the co construction and implementation of STEM activities during school out of school at home and in the community Research suggests that community engaged partnerships forge relationships that can enhance and sustain K 12 STEM education efforts between K 12 districts and the scholarly community There is a need to highlight community engaged teaching and scholarship produced from partnerships between K 12 school districts and STEM outreach organizations Developing and Sustaining STEM Programs Across the K 12 Education Landscape describes the purpose of the collaboration between K 12 school districts and STEM outreach organizations the STEM activities that participating K 12 students engage in and the impacts on STEM learners that emerge from the partnership Covering topics such as continuous program improvement school industry partnerships and student success this premier reference source is an excellent resource for educational leaders and administrators pre service and in service educators teacher educators researchers and academicians

The Internet of Women - Accelerating Culture Change Nada Anid, Monique J. Morrow, Laurie Cantileno,2022-09-01 Female scientists technologists engineers and mathematicians worldwide are making historic contributions to their fields The modern workforce is closer to gender equal than it has ever been and many efforts are in place to support further progress The Internet of Women provides an exciting look at personal narratives and case studies of female leaders and cultural shifts around the globe that illustrate this promising trend From the United Nations emphasis on girls and technology education in the SDGs Sustainable Development Goals to the increased female labor force in Zambia a policy change that was inspired by the MDGs UN Millennial Development Goals The Internet of Women captures stunning

examples of progress from around the world and men working hand in hand with women advocating for cultural change. Scholars and practitioners lament the lack of women leading and working in leading organizations in the technology industry. Gender equality and female participation in the tech field is critical to both developing and developed economies; nevertheless, this gap remains a global phenomenon. The lack of female leadership is particularly extreme at the highest echelons of leading technology organizations. Few publicly traded tech companies have female CEOs; in fact, most nations have zero female leadership in the tech industry. This gap does indicate a slow pace of progress for gender equality in tech employment. Women's pay still lags nearly a decade behind according to the World Economic Forum, meaning that women's on average pay today is the equivalent to that of similarly qualified and similarly employed men in 2006. Without significant progress, the current rate of change will not lead to parity for 118 years according to the World Economic Forum (WEF). However, there's significant work being done to shift this tide. Take for instance Michelle Lee, the first female Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office (USPTO). She reflects on her childhood Girl Scout badge in sewing and cooking and how that memory inspired her to create an IP badge that exposes young women to the process of invention. Social entrepreneur, investor, and Malala Fund co-founder Shiza Shahid shares her efforts beginning from mentoring young women in Pakistan to her current work directing more investment to women innovators around the globe. And Elizabeth Isele, a senior fellow in Social Innovation at Babson College, shares her research on women and ageism, saying we need to retire the word retirement. The book is divided into six parts, each with unique areas of focus: Millennials Leading, Exploring Challenges and Opportunities Facing the Next Generation of Women in Technology, Men and Women Empowering One Another, Bold Leadership, Women Changing the Culture of Investment and Entrepreneurship, Educating for the 21st Century, Breaking the Glass Ceiling, A Generation of Women Forging into Technology Leadership, Emerging Fields of Technology. The Internet of Women gathers examples about the increasingly inclusive and progressive gender culture in technology from over 30 countries. Stories range from an entrepreneur in Dubai partnering with private and public sector entities to accelerate blockchain technology to a young British woman moving to Silicon Valley to launch an artificial intelligence platform and incubator. The book is intended for corporations, academic institutions, the private sector, government agencies, gender experts, and the general public, and its key benefit is to let the reader understand a path towards implementing diversity overall globally. It also showcases the strategies, tools, and tactical execution on how to create cultural change in all parts of the world.

Naughty Christmas: Finding My Dom Hope Fontaine, 2022-11-22. Widow Harper Ivey alone for the holidays goes to visit South Texas and unexpectedly reunites with Caleb Harrison. Her old flame is now navigating single parenthood after a messy divorce. As sparks fly between them, they must decide if their rekindled connection is love or lust. Will the dynamic between this Dom and his newfound Sub ignite a passion they can't ignore?
