### ALL ABOUT CHATGPT

Over the past years, there have been many things like robots and artificial intelligence in our daily lives. AI programs, such as Siri and Alexa, can perform various functions, but these programs are based on modern technology in general.

ChatGPT was created by OpenAI. It means that it has been programmed. After its launch, it got very popular. Now ChatGPT has become a very popular AI program.

You can use ChatGPT to generate text on different topics or to help you with your grammar, spelling, and editing.

Now that ChatGPT is so popular, many people are trying to use it to do their homework.

### ALL ABOUT CHATGPT

Technology is important, and artificial intelligence (AI) is a big part of our lives. ChatGPT is an example of an AI program that can do many things. There are a lot of questions on what progress we can expect in the future.

ChatGPT is a computer program that can write texts, do maths and answer questions. It's fast and clever. For example, it can make text sound more professional, check for spelling mistakes or even help you with your writing.

It is very impressive, but there are some problems. The program can't do everything and sometimes gets wrong. It's not perfect, but it is why you should not believe everything that the program says.

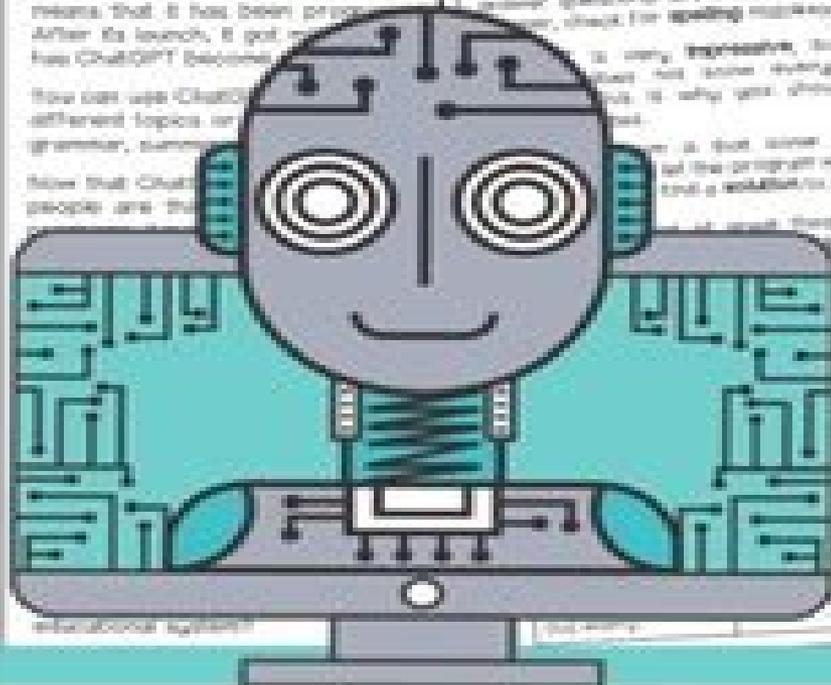

Some people think that some students use ChatGPT to do their homework. But the program can't write texts or do their maths exercises. It's not a solution to the problem.
