An Attempt at a Categorisation for Quotations on Social Network Sites** Julian Botzenhardt,2015-05-22 Seminar paper from the year 2014 in the subject English Language and Literature Studies Linguistics grade 1 0 University of Augsburg language English abstract According to boyd and Ellison 2007 2 Social network sites are web based services that allow individuals to 1 construct a public or semi public profile within a bounded system 2 articulate a list of other users with whom they share a connection and 3 view and traverse their list of connections and those made by others within the system People use such services to represent their personality online thus facilitating communication with friends and also the maintenance of social ties Clearly the most successful and influential of those networks is Facebook Established in 2004 as an exclusive community for Harvard students it opened for the general public in 2006 and has since then gathered over 1 billion members all across the globe currently holding second place of the most visited websites worldwide Human communication has always been characterised by the recycling of language When people talk a great extent of the content of their discussion is devoted to what other people have already said In doing so speakers refer to utterances made by themselves or others inter alia by repetition and paraphrasing They do so simply to report other people s words but also to evaluate what has been said Quoting has also found its way to communication media online due to the technical properties of computer supported environments facilitating the act of accurately reproducing a previously made statement Characteristically Facebook employs mechanisms of automated text creation and distribution to support the users in making quotations These mechanisms though can be very complex and impenetrable This is why I strive to provide insight into the process of quoting on Facebook in this paper To do so I will provide insight into the basics of the scientific field of computer mediated communication as well as the

structural principle of hypertexts in online environments Following that I am going to employ a newly shaped definition of the act of quoting by Bublitz in an examination of the most common text actions on the social network site Facebook Thereby I plan to come up with a framework of quotations on Facebook in both user created and software created texts   **The Facebook Book** Greg Atwan,Evan Lushing,2011-12-23 The Facebook Book by Harvard alums and early Booksters Atwan and Lushing follows in the fine satirical tradition of The Official Preppy Handbook and The Hipster Handbook full of anecdotes true and semi true tips useful and useless and other insights including chapters on the Ethics and Etiquette of using the Book what your profile really says about you and a Facebook dictionary which defines for the uninitiated terms like frenemey and fauxmance The Facebook Book will appeal not only to undergrads but also high schoolers to whom the site was recently opened savvy parents and anyone who s tapped into Web 2 0 culture and counterculture   **Think Like Zuck: The Five Business Secrets of Facebook's Improbably Brilliant CEO Mark Zuckerberg DIGITAL AUDIO** Ekaterina Walter,2013-04-12 Wall Street Journal Bestseller Make Your Mark in the World with the Five Success Principles of the World Changing Social Media Site If Facebook were a country it would be the third largest in the world Facebook accounts for one of every seven minutes spent online More than one billion pieces of content are shared on Facebook There s no doubt about it Mark Zuckerberg s creation has changed the world Literally Facebook has singlehandedly revolutionized the way more than one seventh of the world s population communicates engages and consumes information If you run a business or plan to start one you re probably asking yourself the same question organizational leaders worldwide are asking What did Mark Zuckerberg do right At long last the answer is here Think Like Zuck examines the five principles behind Facebook s meteoric rise presented in actionable lessons anyone can apply in any organization in any industry Written by social business trailblazer Ekaterina Walter this groundbreaking book reveals the five P s of Facebook s success PASSION Keep your energy and commitment fully charged at all times by pursuing something you believe in PURPOSE Don t just create a great product drive a meaningful movement PEOPLE Build powerful teams that can execute your vision PRODUCT Create a product that is innovative that breaks all the rules that changes everything PARTNERSHIPS Build powerful partnerships with people who fuel imagination and energize execution Packed with examples of Facebook s success principles in action as well as those of Zappos TOMS Threadless Dyson and other companies Think Like Zuck gives you the inspiration knowledge and insight to make your own mark in the world to build a business that makes a difference and to lead your organization to long term profitability and growth Think Like Zuck is a fascinating look at how entrepreneurial vision drives success If you want more out of work than just a job if you have the burning desire to build something of lasting value then this is your guide DAVID MEERMAN SCOTT bestselling author of The New Rules of Marketing and PR Whether you re a seasoned business executive or the next Mark Zuckerberg in your dorm room right now this book is a must read Two likeable thumbs up DAVE KERPEN New York Times bestselling author of Likeable Social Media and Likeable Business True success lies at the place where
