I Am Radar Reif Larsen:

I Am Radar Reif Larsen, 2015-02-24 The Washington Post G randly ambitious another masterpiece this genre includes some of the greatest novels of our time from Pynchon's *V* to David Foster Wallace's *Infinite Jest* That's the troupe Larsen has decided to join and *I Am Radar* is a dazzling performance The moment just before Radar Radmanovic is born all of the hospital's electricity mysteriously fails The delivery takes place in total darkness Lights back on the staff sees a healthy baby boy with pitch black skin born to the stunned white parents No one understands the uncanny electrical event or the unexpected skin color A childbirth is an explosion the ancient physician says by way of explanation Some shrapnel is inevitable isn't it A kaleidoscopic novel both heartbreaking and dazzling Reif Larsen's *I Am Radar* begins with Radar's perplexing birth but rapidly explodes outward carrying readers across the globe and throughout history as well as to unknown regions where radio waves and subatomic particles dance to their own design Spanning this extraordinary range with grace and empathy humor and courage *I Am Radar* is the vessel where a century of conflict and art unite in a mesmerizing narrative whole Deep in arctic Norway a cadre of Norwegian schoolteachers is imprisoned during the Second World War Founding a radical secret society that will hover on the margins of recorded history for decades to come these schoolteachers steal radioactive material from a hidden Nazi nuclear reactor and use it to stage a surreal art performance on a frozen coastline This strange society appears again in the aftermath of Cambodia's murderous Khmer Rouge regime when another secret performance takes place but goes horrifically wrong Echoes of this disaster can be heard during the Yugoslavian wars when an avant garde puppeteer finds himself trapped inside Belgrade while his brother serves in the genocidal militia that attacks Srebrenica Decades later in the war torn Congo a disfigured literature professor assembles the largest library in the world even as the country around him collapses All of these stories are linked by Radar now a gifted radio operator living in the New Jersey Meadowlands who struggles with love a set of hapless parents and a terrible medical affliction that he has only just begun to comprehend As *I Am Radar* accelerates toward its unforgettable conclusion these divergent strands slowly begin to converge revealing that beneath our apparent differences unseen harmonies secretly unite our lives Drawing on the furthest reaches of quantum physics forgotten history and mind bending art Larsen's *I Am Radar* is a triumph of storytelling at its most primal elegant and epic a breathtaking journey through humanity's darkest hours only to arrive at a place of shocking wonder and redemption Cleveland Plain Dealer Larsen's is an extraordinarily lush and verdant imagination blooming wildly on the borders of the absurd and the riotous the surreal and the ordinary Quite unlike any novel I've read in a long time One doesn't consume it one enters it as part of a literary enactment Brilliant The effort is well rewarded It is both maddening and marvelous I can't wait to see what he pulls off next **I Am Radar** Reif Larsen, 2015-02-24 At the birth of Radar Radmanovic all of the hospital electricity mysteriously fails When the lights are turned on again the staff is startled to see the healthy baby boy with unusually black skin born to the two stunned Caucasian

parents Despite the father's joy at the successful delivery it is the mother Charlene who bears the brunt of the gossip and speculation and who becomes overwhelmed with her need to fix the skin color of her beloved Radar Though Charlene has her own problems following the birth including a newly heightened but crippling sense of smell she receives no help from the hospital staff A childbirth is an explosion the ancient physician says by way of explanation Some shrapnel is inevitable isn't it Just what was born in the long explosion of the Twentieth Century In the shrapnel of propaganda and colonialism genocide and racism the characters of *I Am Radar* hunt in the rubble for what life can still be salvaged Following a secret society of puppeteers and scientists who perform experimental art in the midst of violent conflict *I Am Radar* is a triumph of pure storytelling a testament to the liberating powers of the imagination In the civil wars of Yugoslavia two brothers walk shockingly different paths one into the rapacious paramilitary forces terrorizing the countryside the other into the world of avant garde puppetry in besieged Belgrade In Norway during the Second World War a group of resistance schoolteachers defy the German occupiers by stealing radioactive material from a secret Nazi nuclear reactor to stage a dramatic art performance with no witnesses deep in the Arctic circle In the years before Cambodia's murderous Khmer Rouge regime an expatriate French landowner adopts an abandoned native child and creates a life long scientific experiment of his new son's education in physics In the modern day Congo a disfigured literature professor assembles the world's largest library composed of perfect interlocking hexagons hidden within the jungle in the futile hope that the books will somehow cement a peace in the war torn country And through all these stories walks Radar Radmanovic a gifted radio operator from the New Jersey Meadowlands an epileptic with a strange past an uncanny ability to communicate with machines and all too ordinary white skin Written by acclaimed novelist Reif Larsen the author of *The Selected Works of T S Spivet* soon to be a major motion picture *I Am Radar* displays the same measures of charm and empathy tragic circumstance and original dialogue for which Larsen's last work was praised A sophisticated but addictive reading experience that draws on the farthest reaches of quantum physics forgotten history and performance art *I Am Radar* is a novel somehow greater than all of its parts a breath taking and unparalleled joyride through the worst that humanity has to offer only to arrive at a place of shocking wonder and redemption

I Am Radar Reif Larsen, 2016-03-29 Big beautiful ambitious It takes narrative magic to pull off such a loopy combination and luckily Reif Larsen has it to spare His prose is addictive and enchanting Los Angeles Times The moment just before Radar Radmanovic is born the hospital's electricity fails The delivery takes place in total darkness Lights back on everyone present sees a healthy baby boy with jet black skin born to the stunned white parents No one understands the uncanny electrical event or the unexpected skin color A childbirth is an explosion an ancient physician explains Some shrapnel is inevitable isn't it A kaleidoscopic novel both heartbreaking and dazzling Reif Larsen's *I Am Radar* rapidly explodes outward from Radar's strange birth In World War II Norway a cadre of imprisoned schoolteachers founds a radical secret society that will hover on the margins of history for decades to come performing acts of radical art and experimental

science in the midst of conflict zones from embattled Bosnia to Khmer Rouge Cambodia and the contemporary Congo All of these stories are linked by Radar now a gifted radio operator living in the New Jersey Meadowlands who struggles with love a set of hapless parents and a terrible medical affliction that he has only just begun to comprehend Drawing on the furthest reaches of quantum physics forgotten history and mind bending art Larsen s I Am Radar is a triumph of storytelling at its most primal elegant and epic a breathtaking journey through humanity s darkest hours yet one that arrives at a place of shocking wonder and redemption [American Literature in Transition, 1990-2000](#) Stephen J. Burn,2017-12-28 Written in the shadow of the approaching millennium American literature in the 1990s was beset by bleak announcements of the end of books the end of postmodernism and even the end of literature Yet as conservative critics marked the century s twilight hours by launching elegies for the conventional canon American writers proved the continuing vitality of their literature by reinvigorating inherited forms by adopting and adapting emerging technologies to narrative ends and by finding new voices that had remained outside that canon for too long By reading 1990s literature in a sequence of shifting contexts from independent presses to the AIDS crisis and from angelology to virtual reality American Literature in Transition 1990 2000 provides the fullest map yet of the changing shape of a rich and diverse decade s literary production It offers new perspectives on the period s well known landmarks Toni Morrison Thomas Pynchon David Foster Wallace but also overdue recognition to writers such as Ana Castillo Evan Dara Steve Erickson and Carole Maso *Epilepsy Metaphors* Eleana Vaja,2017-10-15 Between 1990 and 2015 American literature saw the emergence of a new corpus of epilepsy metaphors which tackle the stigma of epilepsy within three areas society body and language Eleana Vaja introduces concepts such as protometaphors relational metaphors epileptic texts and metastability to categorize and examine these foci further Applying philosophy as well as hard sciences i e mathematics medicine physics to disability studies her study of selected works by Siri Hustvedt Thom Jones Reif Larsen Dennis Mahagin Audrey Niffenegger Rodman Philbrick and Lauren Slater shows how epilepsy metaphors redefine the notion of the liminal and the normal [The Virginia Quarterly Review](#) ,2014 **Literary Lists** Roman Alexander Barton,Eva von Contzen,Anne Ruggemeier,2023-05-23 This book provides a concise introduction to lists in literature from the early modern period to the twenty first century Tracing the changing functions of the literary list across time it offers a broad range of case studies which situate selected enumerations in their respective contexts and demonstrate the versatility and creative potential of the list form Starting with a review of previous research on the literary list the book discusses four main constellations of enumeration series and the great chain of being itemization and enumerative realism letteracettera and experimental list making white noise and creative exploits of enumeration between formal playfulness and existential exploration The epilogue offers an analytical toolkit for the study of literary lists based on rhetorical theory **Talking Book Topics** ,2016 *Vanity Fair* ,2015 *Uma Wimple Charts Her House* Reif Larsen,Ben Gibson,2021-06-15 Hip funny unique and a perfect curriculum tie in here s a picture book with mega kid appeal about the

challenges a student faces when she is given an assignment to make a chart of her own home Uma s been making charts since she was a little kid But when her teacher gives the class Uma s dream assignment to make a chart of their own homes she is thrown for a loop Oh the possibilities Oh the pressure What makes a house housey she wonders In order to figure it out she asks each member of her family Mom Dad and brothers Rex Bram and Lukey But it s not until she has a meltdown and Lukey comforts her that Uma figures out the secret to her chart and her family It s the love that is shared inside a house s walls Told in first person and featuring engaging graphic artwork this fun and lively picture book perfect for classroom use is a reminder that someone s true home is not a place but rather the people with whom you surround yourself
