COUNTERINSURGENCY

DECEMBER 2006
DEFENSEMANAGEMENT

HEADQUARTERS
DEPARTMENT OF THE ARMY

Chapter 4 Executing Counterinsurgency Operations

4-1. Counterinsurgency operations and their success or failure generally occur at the tactical level. The government and the military must be aligned under the same umbrella or branch of the strategy or by the conduct of the same task, and by using a single, integrated system. There are no room for compromise.

(in *Counterinsurgency: The Lessons of Iraq and Afghanistan*, 2007)

The major difference between and within counterinsurgency (COIN) operations is the way of thinking. The difference is not in the COIN doctrine and the way of operations that counterinsurgency can use to wage war. It is in the way of thinking of those COIN operations and how to counterinsurgency in a COIN sense. The major mistake for thinking about war is not to see it as a COIN operation.

THE NATURE OF COUNTERINSURGENCY OPERATIONS

- 4-1. Counterinsurgency (COIN) operations require coordinated activities of military operations, intelligence, governance, and civil affairs. Successful counterinsurgency requires an overall war strategy and doctrine, and the ability to integrate these activities. Intelligence, security, police, and governance. The political goals of COIN are to reduce violence, control territory, and free the territory from the COIN government. Success comes from the ability to control territory, control the population, and control the economy. Successful COIN operations require a focus on the population, the economy, and the territory. There are no military operations that are not COIN operations. The only way to win a COIN operation is to win the political and economic war. The only way to win a COIN operation is to win the political and economic war. The only way to win a COIN operation is to win the political and economic war.
- 4-2. There are five underlying requirements to successful COIN operations:
 - A clear and unified government and the COIN government together have the ability to win the military, intelligence, and security of the territory. There is a focus on the political and economic war.
 - The COIN force and other counterinsurgency units are unified, trained, and equipped to win the COIN war. The COIN force must have the ability to control territory, control the population, and control the economy.
 - Operational success is gained from the COIN government's ability to control territory, control the population, and control the economy. The COIN force must have the ability to control territory, control the population, and control the economy.
 - A strategic vision of "winning" and control of the COIN government is essential to success and control of the territory. The COIN government must control the political and economic war. The only way to win a COIN operation is to win the political and economic war.
 - Allocation of resources to the COIN operation is essential to success. The only way to win a COIN operation is to win the political and economic war.
