Explaining Foreign Policy in Post-Colonial Africa Stephen M. Magu, 2021-01-02 This book explores foreign policy developments in post colonial Africa A continental foreign policy is a tenuous proposition yet new African states emerged out of armed resistance and advocacy from regional allies such as the Bandung Conference and the League of Arab States Ghana was the first Sub Saharan African country to gain independence in 1957 Fourteen more countries gained independence in 1960 alone and by May 1963 when the Organisation of African Unity OAU was formed 30 countries were independent An early OAU committee was the African Liberation Committee ALC tasked to work in the Frontline States FLS to support independence in Southern Africa Pan Africanists in alliance with Brazzaville Casablanca and Monrovia groups approached continental unity differently and regionalism continued to be a major feature Africa s challenges were often magnified by the capitalist democratic versus communist socialist bloc rivalry but through Africa s use and leveraging of IGOs the UN UNDP UNECA GATT NIEO and others to advance development the

formation of the African Economic Community OAU's evolution into the AU and other alliances belied collective actions even as Africa implemented decisions that required cooperation *uti possidetis* maintaining colonial borders containing secession intra and inter state conflicts rebellions and building RECs and a united Africa as envisioned by Pan Africanists worked better collectively

The First World Empire Hélder Carvalhal, André Murteira, Roger Lee de Jesus, 2021-04-05 This book offers a comprehensive overview of the early modern military history of Portugal and its possessions in Africa the Americas and Asia from the perspective of the military revolution historiographical debate The existence of a military revolution in the early modern period has been much debated in international historiography and this volume fills a significant gap in its relation to the history of Portugal and its overseas empire It examines different forms of military change in specifically Portuguese case studies but also adopts a global perspective through the analysis of different contexts and episodes in Africa the Americas and Asia Contributors explore whether there is evidence of what could be defined as aspects of a military revolution or whether other explanatory models are needed to account for different forms of military change In this way it offers the

reader a variety of perspectives that contribute to the debate over the applicability of the military revolution concept to Portugal and its empire during the early modern period Broken down into four thematic parts and broad in both chronological and geographical scope the book deepens our understanding of the art of warfare in Portugal and its empire and demonstrates how the military revolution debate can be used to examine military change in a global perspective This is an essential text for scholars and students of military history military architecture global history Asian history and the history of Iberian empires Chapter 7 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
