The Making Of Pakistan By Kk Aziz:

The Making of Pakistan Khursheed Kamal Aziz,1967 **Economic Factors in the Making of Pakistan (1921-1947)**
Naureen Talha,2000 This book traces the economic history of the Muslims from the fall of the Mughal Empire to
Independence It shows how with the coming of the British a new economic structure emerged in the Indian subcontinent
under which the Muslims lost not only their political power but also their economic standing and then shows how fear of
continued economic deprivation fueled the demand for Partition *The Making of Pakistan* Khursheed Kamal Aziz,1967

The Pakistan Paradox Christophe Jaffrelot,2016-06-16 The idea of Pakistan stands riddled with tensions Initiated by a
small group of select Urdu speaking Muslims who envisioned a unified Islamic state today Pakistan suffers the divisive forces
of various separatist movements and religious fundamentalism A small entrenched elite continue to dominate the country s
corridors of power and democratic forces and legal institutions remain weak But despite these seemingly insurmountable
problems the Islamic Republic of Pakistan continues to endure The Pakistan Paradox is the definitive history of democracy in
Pakistan and its survival despite ethnic strife Islamism and deepseated elitism This edition focuses on three kinds of tensions
that are as old as Pakistan itself The tension between the unitary definition of the nation inherited from Jinnah and
centrifugal ethnic forces between civilians and army officers who are not always in favour of or against democracy and
between the Islamists and those who define Islam only as a cultural identity marker **Pakistan: a Legacy of the Indian
Khilafat Movement** Husein Khimjee,2013-09-10 This book is an interesting study of the Khilafat Caliphate movement in
early twentieth century India The abolition of the caliphate institution in Turkey provided food for thought to the Muslim elite
in India They saw it was possible to theologically explore and evolve the caliphate institution from a one man caliph emperor
to a socially elected caliphate state from an individual caliph to the concept of an Islamic state After tracing the earlier view
of the Caliphate this study looks at the Karbalas Ashura tragedy an event religious scholars and Indian politicians effectively
used to galvanize Muslims into demanding from the British government and the Indian National Congress a separate Islamic
country they would call it Pakistan This book is an invaluable source not only for university students of history but also for
theologians politicians sociologists general readers and also those interested in the last days of the British empire in India
