Artificial Intelligence in Education. Posters and Late Breaking Results, Workshops and Tutorials, Industry and Innovation Tracks, Practitioners, Doctoral Consortium and Blue Sky Ning Wang, Genaro Rebolledo-Mendez, Vania Dimitrova, Noboru Matsuda, Olga C. Santos, 2023-06-29 This volume constitutes poster papers and late breaking results presented during the 24th International Conference on Artificial Intelligence in Education AIED 2023 Tokyo Japan July 3 7 2023 The 65 poster papers presented were carefully reviewed and selected from 311 submissions This set of posters was complemented with the other poster contributions submitted for the Poster and Late Breaking results track of the AIED 2023 conference

Creative Approaches to Technology-Enhanced Learning for the Workplace and Higher Education David Guralnick, Michael E. Auer, Antonella Poce, 2024-10-24 New technologies provide us with new opportunities to create new learning experiences leveraging research from a variety of disciplines along with imagination and creativity The Learning Ideas Conference was created to bring researchers practitioners and others together to discuss innovate and create The Learning Ideas Conference 2024 was the 17th annual conference and was held as a hybrid event The conference took place from June 12th 14th 2024 both in New York and online and included the ALICE Adaptive Learning via Interactive Collaborative and Emotional Approaches Special Track and a Special Session from IGIP the International Society for Engineering Pedagogy Topics covered in this book include among others uses of artificial intelligence in learning online learning methodologies case studies in university and corporate settings new technologies in learning such as along with AI virtual reality augmented reality holograms and more adaptive learning and project based learning The papers included in this book may be of interest to researchers in pedagogy and learning theory university faculty members and administrators learning and development specialists user experience designers and others

Artificial Intelligence in Education. Posters and Late Breaking Results, Workshops and Tutorials, Industry and Innovation Tracks, Practitioners, Doctoral Consortium and Blue Sky Andrew M. Olney, Irene-Angelica Chounta, Zitao Liu, Olga C. Santos, Ig Ibert Bittencourt, 2024-07-01 This volume constitutes poster papers and late breaking results presented during the 25th International Conference on Artificial Intelligence in Education AIED 2024 which took place in Recife Brazil during July 8 12 2024 The 18 full papers and 92 short papers were carefully reviewed and selected from 200 submissions They are organized in topical sections as follows Part One Blue Sky Industry Innovation and Practitioner Wide AIED and Late Breaking Results Part Two Late Breaking Results Doctoral Consortium Workshops and Tutorials

Explainable Artificial Intelligence for Trustworthy Decisions in Smart Applications Nicu Bizon, Bhargav Appasani, 2025-09-30 This book introduces readers to the field of explainable artificial intelligence XAI which aims to make AI models more transparent and trustworthy It explores how XAI can enhance trust and confidence in AI models and their decisions across various innovative applications in fields such as healthcare finance and engineering where AI can significantly impact quality of life Readers will discover emerging

trends related to XAI such as large language models generative AI and natural language processing that are transforming the landscape of AI research and applications Featuring an interdisciplinary overview the book examines the state of the art challenges and opportunities in XAI accompanied by clear examples and detailed explanations of its methods and techniques The book also offers a balanced perspective on the limitations and trade offs of XAI and outlines future directions and opportunities for both research and practice This book is intended for anyone who wants to learn more about XAI and understand how it can enhance trust in AI models

Innovations in Teaching and Learning for Health Professions Educators
Roger Edwards, Bobbie Ann Adair White, Ardi Findyartini, 2025-06-02

The health professions continue to evolve and change rapidly as more opportunities and challenges emerge Hence health professions educators are required to be adaptive and nimble in their creation and adoption of teaching and learning innovations These innovations have included teaching with technologies like virtual reality gamification online applications and artificial intelligence Innovations also include know how such as emotional intelligence and ways of approaching the learning process through student centered learning experiences grounded in the cognitive science of learning Scholarship related to identification of the best uses of different innovations is difficult The same innovations have proven to be engaging in some contexts and burdensome in others Additionally simulation based education continues to incorporate innovations in how health professions educators are taught with more focus on effectiveness of the simulation educator including applications with distance simulation Training and development for health professions and simulation educators is becoming more formalized yet gaps on effectiveness of training and development efforts persist Faculty effectiveness especially as it relates to educational innovation adoption is difficult to measure and demonstration of related competencies is in its infancy The goal of this Research Topic is to bring together state of the art examples of scholarship in health professions education related to the awareness and appropriate adoption of innovation which is broadly defined as an idea practice technology and know how Evidence about the current state of emerging innovations effectiveness of innovations and evidence about the competencies needed for teaching in our evolving environments are all areas of interest for this collection All types of scholarship can support this focus including analyses based on primary quantitative and qualitative data collection secondary data analyses literature reviews and methodological infrastructure tool development Additionally scholarship investigating how these innovations have influenced health professions educators including their training and development is part of the goal of the collection The scope of this collection covers any innovations that are applicable to professional development and implementation for health professions educators More specifically we invite scholarship related to how educators prepare themselves for meeting the needs of their students given the changing roles and innovations available to both faculty and students across learning environments worldwide Examples of topics of interest include Analyses of innovation related to the evolving roles of health professions educators Reviews of educational innovation adoption by health professions education faculty especially related to artificial

intelligence linked applications Exploring factors associated with professional development training and effective educational innovation adoption by faculty Simulation based educational innovation applications for faculty development Faculty innovation in resource constrained environments in low and middle income countries Methodological challenges associated with studying educational innovations by faculty in health professions education and critical research needs associated with generating and evaluating educational innovations Methodological considerations associated with health professions education faculty competencies Theoretically focused analyses are welcome as long as they are linked to applications

Math Optimization for Artificial Intelligence Umesh Kumar Lilhore, Vishal Dutt, T. Ananth Kumar, Martin Margala, Kaamran Raahemifar, 2025-04-21 The book presents powerful optimization approaches for integrating AI into daily life This book explores how heuristic and metaheuristic methodologies have revolutionized the fields of robotics and machine learning The book covers the wide range of tools and methods that have emerged as part of the AI revolution from state of the art decision making algorithms for robots to data driven machine learning models Each chapter offers a meticulous examination of the theoretical foundations and practical applications of mathematical optimization helping readers understand how these methods are transforming the field of technology This book is an invaluable resource for researchers practitioners and students It makes AI optimization accessible and comprehensible equipping the next generation of innovators with the knowledge and skills to further advance robotics and machine learning While artificial intelligence constantly evolves this book sheds light on the path ahead

Future Access Enablers for Ubiquitous and Intelligent Infrastructures Dragan Perakovic, Lucia Knapcikova, 2024-10-15 This book constitutes the refereed post conference proceedings of the 8th EAI International Conference on Future Access Enablers for Ubiquitous and Intelligent Infrastructures FABULOUS 2024 held in Zagreb Croatia during May 9 10 2024 The 14 full papers were carefully reviewed and selected from 35 submissions The papers are organized in thematic sessions on Future access networks Sustainable Communications Computing Infrastructures Environment Applications Scenarios

The Artificial Intelligence Compendium, 1988

Transforming Cybersecurity Audit Practices with Agility and Artificial Intelligence (AI) Dr. Linda Kostic, CISSP, CISA, CIMP, CSCU, CPA, 2026-04-03 In an era where cyber threats evolve faster than traditional defenses can adapt the need for a paradigm shift in cybersecurity auditing has never been more urgent Transforming Cybersecurity Audit Practices with Agility and Artificial Intelligence AI presents a groundbreaking approach to modernizing audit methodologies by integrating agile principles and artificial intelligence AI This book explores how conventional audit frameworks often rigid reactive and siloed can be reimaged into dynamic proactive and intelligent systems that align with the pace of digital transformation Drawing from real world case studies industry standards and emerging technologies this book provides a comprehensive roadmap for cybersecurity audit cybersecurity and information technology professionals seeking to enhance audit and risk management effectiveness and resilience It delves into the application of agile methodologies to audit planning execution and

reporting enabling continuous assurance and iterative risk assessment Simultaneously the book examines the transformative role of AI in automating control testing anomaly detection and predictive analytics thereby reducing human error and increasing audit precision Key themes include the cultural and organizational shifts required to embrace agility the ethical and governance considerations of AI in auditing and the development of hybrid audit models that balance automation with human oversight This book also offers practical tools frameworks and metrics to guide implementation and measure success Whether you re modernizing an internal cybersecurity audit function or building a next generation cybersecurity assurance program this book equips you with the insights and strategies to lead with confidence in a rapidly changing threat landscape It is both a call to action and a practical guide for transforming cybersecurity audits into agile intelligent and future ready practices Keywords Cybersecurity Audit Cybersecurity Risk Management Cyber Threat Intelligence Data Privacy Artificial Intelligence Adversarial AI AI Ethics AI Governance Responsible AI Machine Learning Large Language Models Natural Language Processing Robotic Process Automation Recommender Predictive Analytics AI and Human Element Agile Agility Partnerships Culture Continuous Learning **AI Magazine** ,1999 Artificial Intelligence in Education, 1997 Ben Du Boulay,Riichiro Mizoguchi,1997 *An Introduction to Applied Optics* Louis Claude Martin,1930 **PC AI.** ,1991 **Collegiate Microcomputer** ,1988 *Healthcare Guide to the Internet* ,1999 Guidelines for the Integration of Wildlife and Habitat Evaluations with Ecological Land Survey H.
