Wiseman, 2021-08-02 The Annual Review of Comparative and International Education covers significant developments in the field of comparative and international education This 2020 edition begins with a collection of discussion essays about comparative education trends and directions written by both professional and scholarly leaders Rankings and Accountability in Higher Education: Uses and Misuses Priscilla Toka Mmantsetsa Marope, Peter J. Wells, Unesco, Ellen Hazelkorn, 2013-01-01 The growing impact of university rankings on public policy and on students choices has stirred controversy worldwide This unique volume brings together the architects of university rankings and their critics to debate the uses and misuses of existing rankings With voices from five continents it provides a comprehensive overview of current thinking on the subject and sets out alternative approaches and complementary tools for a new era of transparent and informed use of higher education ranking tables *Love, Money, and Parenting* Matthias Doepke, Fabrizio Zilibotti, 2019-02-05 An international and historical look at how parenting choices change in the face of economic inequality Parents everywhere want their children to be happy and do well Yet how parents seek to achieve this ambition varies enormously For instance American and Chinese parents are increasingly authoritative and authoritarian whereas Scandinavian parents tend to be more permissive Why Love Money and Parenting investigates how economic forces and growing inequality shape how parents raise their children From medieval times to the present and from the United States the United Kingdom Germany Italy Spain and Sweden to China and Japan Matthias Doepke and Fabrizio Zilibotti look at how economic incentives and constraints such as money knowledge and time influence parenting practices and what is considered good parenting in different countries Through personal anecdotes and original research Doepke and Zilibotti show that in countries with increasing economic inequality such as the United States parents push harder to ensure their children have a path to security and success Economics has transformed the hands off parenting of the 1960s and 70s into a

frantic overscheduled activity Growing inequality has also resulted in an increasing parenting gap between richer and poorer families raising the disturbing prospect of diminished social mobility and fewer opportunities for children from disadvantaged backgrounds In nations with less economic inequality such as Sweden the stakes are less high and social mobility is not under threat Doepke and Zilibotti discuss how investments in early childhood development and the design of education systems factor into the parenting equation and how economics can help shape policies that will contribute to the ideal of equal opportunity for all Love Money and Parenting presents an engrossing look at the economics of the family in the modern world Romanic Review Henry Alfred Todd,1928 **The American Economic Review** ,1930 Includes annual List of doctoral dissertations in political economy in progress in American universities and colleges and the Hand book of the American Economic Association The Accounting Review William Andrew Paton,1929 Includes section Reviews **THE NORTH AMERICAN REVIEW VOL.
