

Reading Comprehension Guide for the ACCUPLACER

Six skills prepare students to become better readers and for college-level courses:

- recognizing main ideas
- identifying supporting details
- recognizing implied main ideas and the central point
- understanding relationships that involve addition and time
- understanding relationships that involve illustration, comparison or contrast, and cause and effect
- understanding tone

MAIN IDEA

In order to become a better and faster reader, recognizing the main idea is the most important skill you can develop.

Think of the **main idea** as an “umbrella” idea. It is the author’s primary point about a topic. All other material in the paragraph fits under the main idea. In a paragraph, authors often present the main idea to readers in a single sentence called the **topic sentence**.

Consider this example:

TV violence does affect people in negative ways. Frequent TV watchers are more fearful and suspicious of others. Heavy TV watchers are less upset about real-life violence than non-TV watchers. TV violence increases aggressive behavior in children.

You will see the word **topic** used in two different ways. First, **topic** can be used generally to mean the subject of the reading. Second, it can be used as a part of the phrase, **topic sentence**. In this example, the first sentence tells the reader the general subject or, **topic**, of the passage. The second sentence is the **topic sentence**, and in this case also gives the author’s main idea. This sentence tells the reader what the passage is about and gives the main point the author is making.

SUPPORTING DETAILS

Supporting details are reasons, examples, steps, or other kinds of factual evidence that explain a main idea.

Consider this example:

Main idea: Our government should phase out the penny in the economy.
