Al-Aswad,1984 A Contrastive Analysis of the Arabic and English Phonological Systems Meliani Rouag,1988 **CONTRASTIVE ANALYSIS OF ARABIC AND ENGLISH VERBS IN TENSE, ASPECT, AND STRUCTURE.** Mohamed Kaleefa Al-Aswad,1983 Arabic uses only one **Contrastive analysis and translation : Arabic, Italian, English** Maria Rosaria D'Acierno,2011 Exploring Lexical Inaccuracy in Arabic-English Translation Yasir Alenazi,2022-10-31 This book presents a case study on lexical error analysis in the translation products of Arab English majors at the university level with important implications for Arabic speaking countries It provides detailed analyses and explanations of the main lexical areas that cause specific difficulties for these students while also identifying their potential sources The respective chapters discuss several areas related to the context of the research the field of SLA error analysis language transfer error taxonomies language learning language teaching and translation training The analyses and findings presented here contribute to the linguistic field by developing a comprehensive list of lexical error categories based on form content and origin of influence regarding translation products In addition the book sheds light on the pedagogical aspects contributing to the enhancement of ESL EFL teaching in the Arab context as well as other contexts where English is taught as a foreign language The book will help educators and curriculum writers in designing materials and language researchers as a groundwork for their studies of L2 learners written products

Translating Irony between English and Arabic Raymond Chakhachiro,2019-01-14 This book challenges entrenched literary views that promote the impracticality of linguistic stylistic and functional approaches to the analysis and translation of irony It considers these scientific fields of enquiry as the building blocks on which ironic devices in English and Arabic are grounded and according to which the appropriateness of the methods of translation in the literature is assessed in a quest to pin down an interactive model for the interpretation and translation of irony The book ventures into contrastive linguistic and stylistic analyses of irony in Arabic and English from literary linguistic and discourse perspectives It sheds light on the interpretation and the linguistic realisation of irony in Arabic and English through an interdisciplinary approach and consequently identifies similarities and discrepancies in the form and function of ironic devices between these languages As such it will appeal to professional translators instructors and students of translation as well as language learners language teachers and researchers in cross cultural and inter pragmatic disciplines **Contrastive Analysis of Arabic and English Verbs in Tense, Aspect, and Structure** Mohamed Kaleefa Al-Aswad,1986 A descriptive contrastive analysis of English and Arabic verbs Othman Mohamed Hadeli,1971 Interlanguage Error Analysis: an Appropriate and Effective Pedagogy for Efl Learners in the Arab World Muhammad Khan Abdul Malik,2020-05-31 First of all the author wants to make it crystal clear that the present work is of a great benefit both for the English and Arab learners of the target language either Arabic or

English This edition of the book pinpoints previous researchers findings regarding English and Arabic phonological morphological and syntactic similarities and differences and how all these differences result in mistakes and errors by the Arab learners of English in their learning process These mistakes or errors are unconsciously or involuntarily made by Arab learners of English due to the differences between the system and sub systems of the two languages The present attempt is the result of my realization as an English language teacher as to how a teacher can minimize students difficulties in learning of English and maximize their knowledge skills and competency of English as a foreign or second language This is the first edition The work is pedagogically oriented and primarily intended to make teaching learning of English as a foreign second language a bit easy especially for the first year university students of English language in the Arab world Gulf area such as KSA UAE Kuwait and the Middle East Area such as Jordan Syria Lebanon and so on The focus is on phonetic and morpho syntactic variations in Arabic and English languages This area of research becomes more interesting through the assumptions i information about the differences and similarities between Arabic and English language is to be supplied at an early stage since this facilitates the students learning task ii the differences are to be presented in pedagogically suitable format iii it is useful to separate and present phonetics morphological and syntactic categories as they function in suitable contexts and not merely abstract notions iv before students may tackle contrastive analysis they should have basic knowledge of Arabic and English languages similarities and differences and v pre modification and post modification of lexical and syntactic structures are to be explained appropriately

areas in students and trainees by providing a suitably wide range of bidirectional practice materials for them and their teachers. Contrastive Analysis of Arabic and English Passive Structures Ahmed Mohamed Abunowara, 1983

Errors in English Pronunciation among Arabic Speakers Mohamed Fathy Khalifa, 2020-01-17 This book is a contrastive analysis of Arabs' errors in English pronunciation regarding segmentals, consonants, consonant clusters and vowels and suprasegmentals, main word stress. It also explains the main interlingual reasons behind these errors and presents some teaching suggestions for surmounting them. The findings show that the subjects substitute their own Arabic sounds for unfamiliar English ones, producing incorrect English sounds. In addition, they apply Arabic main word stress rules instead of English ones, producing incorrect English stress patterns. The book also shows that English sounds and stress patterns that are both different and more marked than corresponding Arabic ones caused learning difficulties for the subjects.
