

Organize Elements

Can you find the pattern?

Procedure

1. Read and complete the lab safety form.
2. Make a set of element cards based on the information in the chart at right.
3. Organize the cards by increasing mass, and start placing them into a 4 column \times 3 row grid.
4. Place each card based on its properties, and leave gaps when necessary.

Symbol	Mass (g)	State	Color
Ad	52.9	solid/liquid	orange
Ax	108.7	ductile solid	light blue
Bp	69.3	gas	red
Cx	112.0	brittle solid	light green
Lg	98.7	ductile solid	blue
Pd	53.4	brittle solid	green
Qa	68.2	ductile solid	dark blue
Rz	106.9	liquid	yellow
Tu	64.1	brittle solid	hunter
Xn	45.0	gas	crimson

Analysis

1. **Make** a table listing the placement of each element.
2. **Describe** the period (across) and group (down) trends for the color in your new table.

From left to right (across) my periodic table it is ordered from lowest atomic mass to highest atomic mass. In each group we will find a different color tone then downwards you will notice how the tone started with a dark color and ends with a lighter color.

3. **Describe** the period and group trends for the mass in your new table. Explain your placement of any elements that do not fit the trends.

The mass trend that follows my table is that from left to right you will notice that it is organized from the lowest to the highest atomic mass. Each column has a different color and starts with the darkest color and ends with the lightest one. There were two elements that I had to remove, since their atomic mass did not agree with the order that I established. These were Ad and Ax. At the bottom of the worksheet I put a photo pointing out why those elements do not go with my table and then another one removing those elements and the second table is the one that follows the correct trend.

4. **Predict** the placement of a newly found element, Ph, that is a fuchsia gas. What would be an expected range for the mass of Ph?

5. **Predict** the properties for the element that would fill the last remaining gap in the table.
