Sink The Zinc Terri Talley Venters, 2021-01-18 The 61 DIVOC Virus caused a Pandemic Originating in China, it attacks the immune system and depletes the body of its vital Zinc. The body's depletion of Zinc causes severe body odor, and the media quickly nicknames the virus Zinc Stink. As the easily contracted virus spreads, hundreds of thousands die around the world. Bestselling author Leila and her husband Luke have prepared for the Armageddon for years. As the Zinc Stink cases spike and the death toll explodes, Leila's overactive imagination runs wild with conspiracy theories. She's convinced that this virus is merely a distraction to keep everyone safe at home from the real threat. Dozens of empty cruise ships are converted to temporary hospitals for Zinc Stink patients. Riots, protests, and violence ensue, and the healthy humans storm the ports chanting "Sink the Zinc, Sink the Zinc, Sink the Zinc." Following the actual timeline of the real COVID-19 Virus of 2020, this book was written while under "Safer at home" orders during the actual Corona Virus. The daily lives of Leila and Luke are inspired by true events. However, the events after April and all of the conspiracy theories mentioned in the book are fictional. We hope.
