Assembling A Collaborative Project Team:

Assembling a Collaborative Project Team Dale Sinclair,2019-07-25 Contemporary construction practice presents a shift in emphasis from thinking about the design team in isolation to considering the project team as a collaborative whole client design team and contractor This approach requires greater consideration of how the project team is procured and assembled and Assembling a Collaborative Project Team provides a range of in depth and invaluable methods for ensuring that this essential task is carried out effectively It will bring a range of benefits to any project from facilitating BIM ready teams to better construction programming and reducing risk through ensuring a watertight contractual framework Many of the methods presented here are likely to become ingrained in the way all projects are coordinated It shows that the best way of assembling a collaborative team is by establishing the team at the outset in manner that ensures that each party is fully aware of what they need to do and when and by agreeing how this will be achieved **Assembling a Collaborative**

Project Team Dale Sinclair,2013 Contemporary construction practice presents a shift in emphasis from thinking about the design team in isolation to considering the project team as a collaborative whole client design team and contractor This approach requires greater consideration of how the project team is procured and assembled and Assembling a Collaborative Project Team provides a range of in depth and invaluable methods for ensuring that this essential task is carried out effectively It will bring a range of benefits to any project from facilitating BIM ready teams to better construction programming and reducing risk through ensuring a watertight contractual framework Many of the methods presented here are likely to become ingrained in the way all projects are coordinated It shows that the best way of assembling a collaborative team is by establishing the team at the outset in manner that ensures that each party is fully aware of what they need to do and when and by agreeing how this will be achieved *Guide to Using the RIBA Plan of Work 2013* Dale

Sinclair,2019-07-25 The RIBA Plan of Work 2013 is the definitive framework for the contemporary building design and construction process It provides a stage by stage model to assist all members of the project team to manage the process from inception to completion and beyond This practical guide explains how the RIBA Plan of Work 2013 can be applied for optimal results in construction projects revealing the Plan of Work as much more than just a project framework It can be used as a tool to ensure best outcomes and guide thinking across a range of key themes including whole life costs procurement routes BIM and social and environmental sustainability With useful explanations of the various stages and technical terms this book is packed with guidance and tips for using the Plan of Work to ensure genuinely integrated projects Intended as complementary to the RIBA Plan of Work 2013 Online the RIBA Job Book and Assembling the Project Team it is for construction professionals industry wide from architectural practices to clients and contractors as well as students studying for their professional examinations **BIM Demystified** Steve Race,2019-07-26 BIM Demystified is a short practical introduction to Building Information Modelling BIM Addressing BIM from the point of view of mainstream practice as

opposed to a cutting edge technological perspective it offers a user friendly yet thorough explanation of a subject which is often swamped by jargon and deluged with spin Taking a wide view of BIM encompassing business opportunity Code of Conduct cultural issues and the necessity for better legal arrangements too the book s chapters range from the BIM ingredients including objects parametrics and standards to the business case for BIM and how to implement it BIM requires a shift in attitudes if its benefits are to be obtained and this book will allow individuals at all levels in any practice to build a firmer understanding of the merits and wider application of the subject It brings together both managers and technologists within businesses throughout the AECC chain to form better and more valuable propositions for built environment interventions
