Bandwidth Jane A. G. Kise, Ann Holm, 2022-07-15 It's time to make your mental bandwidth work for you. Being an educator is more stressful than ever and teachers and administrators must constantly shift gears to stay on top of the newest initiatives and students' ever-changing needs. *Educator Bandwidth: How to Reclaim Your Energy, Passion, and Time* provides the tools and strategies to reduce stress, avoid burnout, and regain the time that gets lost to interruptions, temptations, competing demands, and task switching. The first step is to understand how much stress is weighing on your own mental bandwidth. Professional development experts Jane A. G. Kise and Ann Holm have developed the *Brain Energy and Bandwidth Survey* to help you self-assess the six key factors that contribute to bandwidth: Balance between priorities, Filtering through possibilities, Mental habits that improve focus, Physical habits that fuel the brain, Connection with others, and Workload and time management. Kise and Holm combine the latest neuroscience research with their own extensive experience working with educators to bring the most effective strategies and habits that help you manage your mental bandwidth and prioritize drains on mental energy. When you can establish good habits, focus on what's possible within your locus of control, and balance priorities, you can improve your educator bandwidth and feel more engaged, centered, and effective in your work.

Turning the Page Rachel Slaughter, 2021-03-05 There is a dearth of multicultural literature in schools since few schools offer a curriculum that promotes multicultural education. However, by the year 2050, ethnic minority children will make up the majority of the United States public school classrooms. Multicultural literature is the building block of a multicultural education which reflects our nation's diversity and helps all students learn by providing help to bridge the cultural gap and promote racial awareness. Teachers often find it difficult to identify or find quality multicultural literature that adheres to the standard curriculum. *Turning the Page: The Ultimate Guide for Teachers to Multicultural Literature* helps educators find and evaluate multicultural books that are suitable for the classroom and align with the standard curriculum. The book includes a peer-reviewed metric that shows teachers how to substitute biased books with multicultural literature that endorse the same themes. Second, the book includes reviews, lesson plans, and curated book lists of multicultural books. Finally, the book offers a stepwise plan on how to create a task force of school stakeholders who can implement a comprehensive multicultural program. In 2018, The National Association for Multicultural Education released standards for multicultural education to encourage school staff to become culturally competent and linguistically diverse. *Turning the Page: The Ultimate Guide for Teachers to Multicultural Literature* moves educators in that direction.

Next Generation Technology-Enhanced Assessment John C. Scott, Dave Bartram, Douglas H. Reynolds, 2017-12-28 The use of technology for workplace and occupational testing blossomed in the early years of this century. This book offers a demonstration that the first generation of these technologies have now been implemented long enough to observe the patterns and issues that emerge when these approaches evolve through technical advancement and successive application. A new set of issues and opportunities has emerged, and the next generation of these applications is now coming of age. This book reflects on the last few decades of this evolutionary process from a vantage point

of global experience across a wide range of workplace applications including employment selection development and occupational certification The themes and issues that arise as this broad treatment unfolds provide an essential foundation for students researchers and professionals who are involved with the assessment of human capability and potential in organizational and workplace contexts
