

**AIRFIX**  
magazine guide 5  
**Tank and AFV  
Modelling**

Tanks and armoured fighting vehicles have always exercised a fascination among their own, and are especially popular subjects with plastic modellers. This book shows how a wide variety of different models can be made by combining parts from two or more model construction kits, or even assembled entirely from scratch using plasticard, metal parts and other low-cost materials. Fully illustrated with photographs and scale plans, the book also includes advice on tools, materials and techniques available to all military modellers.
