The State of the Internet Ryan

Richardson Barrett, 2024-09-09 The Internet has become one of the most peculiar realms that humanity has ever created Come along as Ryan Richardson Barrett explains the elaborate networks that the Internet is comprised of in their current state and how they came to be Outlined herein are not only the technological advancements that have brought the Web to its modern form but also the influence Internet connectivity has on individuals both the good and bad The State of the Internet strives to be as entertaining as it is informative and maintains a humanistic narrative even though the subject matter focuses on the Web networking search engines and psychological impacts of Internet use Unusual aspects of the online world are detailed such as how the dark web functions using the Onion browser Censorship is an important concept today as governments and companies take action to prevent people from accessing certain content The State of the Internet also provides practical techniques for how to use search engines to their greatest effect

An Introduction to Blockchain and AI in Food Supply Chain in Smart Cities. Reducing Waste Somdip Dey, 2022-07-13 Scientific Study from the year 2022 in the subject Computer Sciences Artificial Intelligence University of Essex School of Computer Science and Electronic Engineering language English abstract Food waste is an important social and environmental issue that the current society faces where one third of the total food produced is wasted or lost every year while more than 820 million people around the world do not have access to adequate food However as we move towards a decentralized Web 3 0 enabled smart city we can utilize cutting edge technologies such as blockchain artificial intelligence cloud computing and many more to reduce food waste in different phases of the supply chain In this book we introduce FoodSQRBlock and SmartNoshWaste two blockchain based multi layered frameworks in the food supply chain utilizing cloud computing QR code and reinforcement learning to reduce food waste

Market-Oriented Disinformation Research Carlos Diaz Ruiz, 2025-03-25 Market Oriented Disinformation Research explores the spread of false or misleading information online through the lens of marketing theory and consumer research It

examines how the business models of digital platforms and advertising technology firms AdTech generate digital markets that incentivize the circulation of harmful content for profit Rather than viewing disinformation and misinformation as accidental byproducts the book proposes that they thrive in the current markets designed for digital advertising and influencer marketing Readers will learn how the amplification of disinformation can be linked to social media s business model Examples include how social media algorithms promote addictive content how fake news sites use ad fraud to lure in advertising revenue and how some content creators rely on clickbait ragebait bots and conspiracy theories to boost their engagement metrics The book is a must read for scholars in journalism media studies and political communication as well as policymakers interested in the democratic governance of social media platforms In addition it calls for digital marketing advertising and brand management professionals to take responsibility for their ad spending by advocating for greater oversight over AdTech intermediaries to prevent unethical actors from monetizing the harmful content that polarizes society and undermines democratic institutions
