Snapchat How To Returns:

From Requirements to Java in a Snap Michał Śmiałek, Wiktor Nowakowski, 2015-01-14 This book provides a coherent methodology for Model Driven Requirements Engineering which stresses the systematic treatment of requirements within the realm of modelling and model transformations The underlying basic assumption is that detailed requirements models are used as first class artefacts playing a direct role in constructing software To this end the book presents the Requirements Specification Language RSL that allows precision and formality which eventually permits automation of the process of turning requirements into a working system by applying model transformations and code generation to RSL The book is structured in eight chapters The first two chapters present the main concepts and give an introduction to requirements modelling in RSL The next two chapters concentrate on presenting RSL in a formal way suitable for automated processing Subsequently chapters 5 and 6 concentrate on model transformations with the emphasis on those involving RSL and UML Finally chapters 7 and 8 provide a summary in the form of a systematic methodology with a comprehensive case study Presenting technical details of requirements modelling and model transformations for requirements this book is of interest to researchers graduate students and advanced practitioners from industry While researchers will benefit from the latest results and possible research directions in MDRE students and practitioners can exploit the presented information and practical techniques in several areas including requirements engineering architectural design software language construction and model transformation Together with a tool suite available online the book supplies the reader with what it promises the means to get from requirements to code in a snap

Appified Jeremy Wade Morris, Sarah Murray, 2018-10-23 Snapchat WhatsApp Ashley Madison Fitbit Tinder Periscope How do we make sense of how apps like these and thousands of others have embedded themselves into our daily routines permeating the background of ordinary life and standing at the ready to be used on our smartphones and tablets When we look at any single app it s hard to imagine how such a small piece of software could be particularly notable But if we look at a collection of them we see a bigger picture that reveals how the quotidian activities apps encompass are far from banal connecting with friends and strangers and enemies sharing memories and personally identifying information making art and trash navigating spaces and reshaping places in the process While the sheer number of apps is overwhelming as are the range of activities they address each one offers an opportunity for us to seek out meaning in the mundane Appified is the first scholarly volume to examine individual apps within the wider historical and cultural context of media and cultural studies scholarship attuned to issues of politics and power identity and the everyday
